10. **Medicare Provider Number** \_\_\_\_\_  
**Certification Type** \_\_\_\_\_

11. **Medicaid Provider Number** Will be applied for  
**Certification Type** Birthing Center

12. **If this is a new facility, will certification be sought for Medicare and/or Medicaid?**  
  X   Yes – The facility will apply for Medicaid certification  
       No  
       NA

13. **Will this project involve the treatment of TennCare participants?** Yes; all MCOs serving Middle Tennessee. TennCare MCOs serving Nashville are United Healthcare Community Group, Amerigroup, and TennCare Select.

**NOTE:** **Section B** is intended to give the applicant an opportunity to describe the project and to discuss the need that the applicant sees for the project. **Section C** addresses how the project relates to the Certificate of Need criteria of Need, Economic Feasibility, and the Contribution to the Orderly Development of Health Care. **Discussions on how the application relates to the criteria should not take place in this section unless otherwise specified.**

## **SECTION B: PROJECT DESCRIPTION**

Please answer all questions on 8 1/2" x 11" white paper, clearly typed and spaced, identified correctly and in the correct sequence. In answering, please type the question and the response. All exhibits and tables must be attached to the end of the application in correct sequence identifying the questions(s) to which they refer. If a particular question does not apply to your project, indicate "Not Applicable (NA)" after that question.

- I. Provide a brief executive summary of the project not to exceed two pages. Topics to be included in the executive summary are a brief description of proposed services and equipment, ownership structure, service area, need, existing resources, project cost, funding, financial feasibility, staffing, and how the project will contribute to the orderly development of adequate and effective healthcare.

*Response: The applicant seeks approval to establish a birthing center in Nashville at 2106 21<sup>st</sup> Avenue in approximately 4,350 sq. ft. of leased space. The facility will be staffed by nurse midwives and a medical director through a professional services agreement with Vanderbilt University Medical Center ("VUMC"). The birthing center model is based on the concept that childbearing is a normal physiologic process, and that mothers with low risk of complications can safely deliver in home-like setting on an outpatient basis. In addition to obstetrical care, the facility will also provide pre-conception and fertility counseling, pre-natal exams and after-birth follow up. The facility will provide educational classes in subjects such as birth preparation and breastfeeding.*

*The facility will consist of 5 birthing suites, 3 examination rooms, a laboratory, a class room, a family room/kitchen and various support areas. Each of the birthing suites will be equipped with a birthing tub. Physical facilities and amenities will be home-like and comfortable for patients and their families. The facility will be located in close proximity (less than one mile) to VUMC, thus assuring the timely transport of the rare patients who require hospital care.*

*The applicant is a wholly-owned subsidiary of Maternity Centers of America ("MCA") based in Rogers, Arkansas. MCA is led by Dr. Cara Osborne. Dr. Osborne's education includes an MSN in Midwifery from the Vanderbilt School of Nursing and MS and ScD degrees in maternal and child health from Harvard. She is nationally known as an educator and leader in the fields of midwifery and birth centers.*

*MCA currently operates a birthing center in Rogers, AR, and it has facilities under development in Denver, CO and Cary, NC.*

*The service area for the facility is Davidson County. Given the outpatient nature of the service, the applicant expects that at least 80% of its patients will be Davidson County residents*

*The need for the project is established by the absence in of the birthing center model in Davidson County, a county whose residents gave birth to 9,712 babies in 2012. The applicant believes there is significant unmet demand in the market for the birthing center option. According to a 2013 national survey, Childbirth Connection, Listening to Mothers III, 25% of women who have given birth in the past year would prefer a birth center if available, and another 39% would consider a birth center if available. The birth center model is well-established as a safe, cost-effective alternative for low risk mothers.*

*There are several hospital-based obstetrical programs in Nashville, but there are no birthing centers in the area. The closet birthing center to Nashville is in Cookeville, TN, about 75 miles east of Nashville.*

*The total project cost is \$2,536,436.65, which includes the total of lease payments over the initial term of the lease. Actual capital outlay for construction and equipment and certificate of need process is approximately \$627,924. The initial capital outlay and working capital will be provided by MCA and its investor/owner.*

*As indicated in the Projected Data Chart, the facility will achieve a positive financial result in the first full year of operation. All midwife staffing will be provided by VUMC through a contract, and the facility will employ 3.4 RN FTEs.*

**II. Provide a detailed narrative of the project by addressing the following items as they relate to the proposal.**

**A. For the establishment or modification of a healthcare institution describe the development of and need for the proposal. Health care institutions include:**

1. Nursing home
2. Hospital
3. Ambulatory Surgical Treatment Center
4. Birthing Center
5. Mental Health Hospital
6. Intellectual Disability Institutional Habilitation Facility
7. Home Care Organization (Home Health Agency or Hospice Agency)
8. Outpatient Diagnostic Center
9. Rehabilitation Facility
10. Residential Hospice
11. Nonresidential Substitution-based Treatment Center for Opiate Addiction

Describe the construction, modification and/or renovation of the facility (exclusive of major medical equipment covered by T.C.A. § 68-11-1601 et seq.) including square footage, major operational areas, room configuration, etc. Applications with construction, modification and/or renovation costs should complete the Square Footage and Cost per Square Footage Chart. Utilizing the attached Chart, applicants with hospital projects should complete Parts A.-E. by identifying as applicable nursing units, ancillary areas, and support areas affected by this project. Provide the location of the unit/service within the existing facility along with current square

footage, where, if any, the unit/service will relocate temporarily during construction and renovation, and then the location of the unit/service with proposed square footage. The total cost per square foot should provide a breakout between new construction and renovation cost per square foot. Other facility projects need only complete Parts B.-E. Please also discuss and justify the cost per square foot for this project.

*Response: The project will require the renovation and build-out of approximately 4,350 sq. ft. of leased space. The facility include 5 birthing suites, all of which will be equipped with a birthing tub, 3 examination rooms, a laboratory, a kitchen and lounge area for families, a classroom and various support areas. The construction cost for the project is approximately \$103.24 per sq. ft. A letter from the project architect at Attachment C, Economic Feasibility-1(Architect Letter) confirms the reasonableness of the project cost.*

- B. Identify the number and type of beds increased, decreased, converted, relocated, designated, and/or redistributed by this application. Describe the reasons for change in bed allocations and describe the impact the bed change will have on the existing services. *Response: Not applicable.*

C. As the applicant, describe your need to provide the following health care services (if applicable to this application):

1. Adult Psychiatric Services
2. Hospital-Based Alcohol and Drug Treatment for Adolescents (exceeding 28 days)
3. Burn Units
4. Cardiac Catheterization Services
5. Child and Adolescent Psychiatric Services
6. Extracorporeal Lithotripsy
7. Home Health Services
8. Hospice Services
9. Magnetic Resonance Imaging (MRI)
10. Neonatal Intensive Care Unit
11. Opiate Addiction Treatment provided through a Non-Residential Substitution-Based Treatment Center for Opiate Addiction
12. Open Heart Surgery
13. Positron Emission Tomography
14. Radiation Therapy/Linear Accelerator
15. Rehabilitation Services
16. Swing Beds
17. Discontinuation of any obstetrical or maternity service
18. Closure of a Critical Access Hospital
19. Elimination in a critical access hospital of any service for which a certificate of need is required

*Response: Not applicable*

D. Describe the need to change location or replace an existing facility. *Not applicable*

E. Describe the acquisition of any item of major medical equipment (as defined by the Agency Rules and the Statute) which exceeds a cost of \$1.5 million; and/or is a magnetic resonance imaging (MRI) scanner, positron emission tomography (PET) scanner, extracorporeal lithotripter and/or linear accelerator by responding to the following:

1. For major medical equipment (not replacing existing equipment):
  - a. Describe the new equipment, including:
    1. Brief description of equipment including characteristics such as fixed or mobile; expected vendor and model (if known); for MRI use descriptors such as Tesla strength, open/closed bore; for linear accelerators use descriptors such as MeV strength, IMRT/IGRT/SRS capability; etc.;
    2. Total cost (As defined by Agency Rule 0720-9-.01(13))
      - a. By Purchase or
      - b. By Lease;
    3. Expected useful life;
    4. List of clinical applications to be provided;
    5. Documentation of FDA approval; and

6. For mobile major medical equipment list all sites that the unit is currently serving and its current schedule of operations at those sites.
- b. Provide current and proposed schedules of operations.

*Response: Not applicable*

2. Indicate applicant's legal interest in equipment (*i.e.*, purchase, lease, etc.) In the case of equipment purchase include a quote and/or proposal from an equipment vendor, or in the case of an equipment lease provide a draft lease or contract that at least includes the term of the lease and the anticipated lease payments along with the fair market value of the equipment.

*Response: Not applicable*

**III. (A)** Attach a copy of the plot plan of the site on an 8 1/2" x 11" sheet of white paper which **must include**:

1. Size of site (*in acres*);
2. Location of structure on the site; and
3. Location of the proposed construction.
4. Names of streets, roads or highway that cross or border the site.

***Please note that the drawings do not need to be drawn to scale. Plot plans are required for all projects.***

*See Attachment B, III.(A).*

- (B)** 1. Describe the relationship of the site to public transportation routes, if any, and to any highway or major road developments in the area. Describe the accessibility of the proposed site to patients/clients. ***(Not applicable to home health or hospice agency applications.)***

*Response: The proposed site is located on a major thoroughfare that is serviced by a Nashville Metro Transit Authority bus route that stops near the location approximately every twenty minutes. The proposed site sits approximately one-half mile north of Interstate 440 and less than one mile south of Vanderbilt University. As a result of its location on a major thoroughfare, the proposed site will be very accessible to patients and clients.*

**IV.** Attach a floor plan drawing for the facility which includes legible labeling of patient care rooms (noting private or semi-private), ancillary areas, equipment areas, etc. on an 8 1/2" x 11" sheet of white paper. ***(Not applicable to home health or hospice agency applications.)***

**NOTE: DO NOT SUBMIT BLUEPRINTS.** Simple line drawings should be submitted and need not be drawn to scale.

*See Attachment B, IV.*

**V.** For a Home Health Agency or Hospice, identify:

1. Existing service area by County;

2. Proposed service area by County;
3. A parent or primary service provider;
4. Existing branches; and
5. Proposed branches.

## **SECTION C: GENERAL CRITERIA FOR CERTIFICATE OF NEED**

In accordance with Tennessee Code Annotated § 68-11-1609(b), "no Certificate of Need shall be granted unless the action proposed in the application for such Certificate is necessary to provide needed health care in the area to be served, can be economically accomplished and maintained, and will contribute to the orderly development of health care." The three (3) criteria are further defined in Agency Rule 0720-4-.01. Further standards for guidance are provided in the state health plan developed pursuant to Tennessee Code Annotated §68-11-1625.

The following questions are listed according to the three (3) criteria: (I) Need, (II) Economic Feasibility, and (III) Contribution to the Orderly Development of Health Care. Please respond to each question and provide underlying assumptions, data sources, and methodologies when appropriate. Please type each question and its response on an 8 1/2" x 11" white paper. All exhibits and tables must be attached to the end of the application in correct sequence identifying the question(s) to which they refer. If a question does not apply to your project, indicate "Not Applicable (NA)."

### **QUESTIONS**

#### **NEED**

1. Describe the relationship of this proposal toward the implementation of the State Health Plan and Tennessee's Health: Guidelines for Growth, if applicable.
  - a. Please discuss how the proposed project will relate to the 5 Principles for Achieving Better Health found in the State Health Plan. Please list each principle and follow it with a response.

*Response:*

#### **Healthy Lives**

*This project promotes maternal and newborn health by providing a safe, cost-effective, comfortable option for low-risk mothers. A study in 2013 based on data from 79 birthing centers in 33 states showed that only 6% of women who planned deliveries at a birth center were transferred to a hospital for a cesarean section; only 1.9% of mothers or newborns required emergent transfer during labor or after birth; and there were no maternal deaths. "Outcomes of Care in Birth Centers: Demonstration of a Durable Model," Journal of Midwifery & Women's Health, Vol.58, No.1, January/February 2013.*

#### **Access to Care**

*The birthing center model currently does not exist in Nashville, with the closet birthing center located about 75 miles away. This project will make the birthing center alternative available to low-risk mothers in the Nashville area. In addition, the applicant intends to*

*contract with all TennCare MCOs in the area, thus assuring access to the facility by low income mothers.*

#### Economic Efficiencies

*As demonstrated elsewhere in the application, the birthing center model is a cost-effective alternative to hospital-based care for low-risk mothers. The average charge for low-risk deliveries in 2012 at the Nashville hospitals for which the Department of Health has data was \$11,687, and these charges do not include the professional services. The applicant's global charge for all services will be \$7,500.*

#### Quality of Care

*Quality of care in the proposed facility is assured. Midwife staffing and the Medical Director will be provided by VUMC pursuant to a Professional Services Agreement. The facility plans to qualify for accreditation by the Commission on the Accreditation of Birth Centers, as is MCA's center in Rogers, AR.*

#### Health Care Workforce

*The facility will support the development of nurse midwives by offering a facility in which deliveries are handled by nurse midwives. In addition, the facility will enter into a clinical affiliation agreement with Vanderbilt University School of Nursing, pursuant to which the facility will be a site for clinical training.*

- b. Please provide a response to each criterion and standard in Certificate of Need Categories that are applicable to the proposed project. Do not provide responses to General Criteria and Standards (pages 6-9 of the Guidelines for Growth) here.

*Response: Responses to the criteria in the Guidelines for Growth applicable to Birthing Centers are as follows:*

1. The approval of a birthing center will be made only when it is demonstrated that the accessibility to adequate obstetrical and gynecological services in the applicant's geographical service area are limited and/or there are special circumstances which require additional services.

*Response: While there are several high-quality obstetrical programs at Nashville hospitals, the birthing center model is not currently available to low-risk mothers in the area. Vanderbilt has a nurse midwife program, but it is located inside the hospital, a tertiary referral hospital for obstetrical services, caring for patients from a broad region with complicated, high-risk pregnancies. The facility proposed by the applicant will create the option for a completely different birthing experience that is not available in Nashville. The closest birthing center to Nashville is located in Cookeville, approximately 75 miles away.*

2. A specific service area should be identified and all existing providers of obstetrical services in that service area should be identified. Service area shall mean the county or counties represented by the applicant as the reasonable area to which the facility intends to provide services and/or in which the majority of the service recipients reside. The service area should be based on an optimal balance between population density and service proximity.

*Response: Given the outpatient nature of the service, the applicant expects at least 80% of its patients to be Davidson County residents. The existing providers of obstetrical services are as follows: Vanderbilt University Medical Center, St. Thomas Midtown Hospital, Centennial Medical Center, Nashville General Hospital, Summit Medical Center, Skyline Medical Center and Southern Hills Medical Center.*

3. The female population aged 15-44 in the service area should be identified. The current year's population and the population four years hence should be used.

*Response:*

Davidson County – Female, Age 15-44 Population

<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>	<u>2018</u>
148,724	148,468	148,146	148,162	148,342

*Source: TN Department of Health, Division of Policy, Planning and Assessment, Office of Health Statistics*

4. The relationship of the socio-demographics of the service area and the projected population to receive services should be considered. The proposal's sensitivity to and responsiveness to the special needs of the service area should be considered, including the accessibility to consumers, particularly women, racial and ethnic minorities, and low-income consumers.

*Response: The applicant plans to contract with all TennCare MCOs in the market. Given the lack of birth center options in the market and the involvement of Vanderbilt in the clinical operations of the facility, the applicant expects that its facility will be well-received by both TennCare MCOs and patients covered by TennCare. The facility otherwise will be accessible to all patients regardless of race or ethnicity.*

5. The applicant must identify the existing facilities providing obstetrical services in the service area and their utilization.

*Response:*

<u>Nashville Hospitals With Obstetrical Service</u>	<u>Live Births from JARs</u>		
	<u>2013</u>	<u>2012</u>	<u>2011</u>
St. Thomas Midtown	6,092	6,522	6,879
Nashville General	543	689	680
Vanderbilt	4,554	4,246	3,843
Centennial Medical Center	N/A*	2,998	2,613
Summit Medical Center	N/A*	1,112	1,192

\*2013 JAR not available

6. The applicant must indicate the distance and approximate travel time that patients in need of emergency obstetrical services would have to travel to the nearest acute care facility to receive emergency care.

*Response: The closest hospital to the applicant's facility will be VUMC, a distance of less than one (1) mile. The facility will have a transfer agreement with VUMC.*

7. The applicant must indicate the modes of transportation that will be used by obstetrical patients for emergency transfer. The applicant must have written protocols, procedures, and transfer agreements for the appropriate transfer of patients to a nearby acute care facility offering obstetrical services for emergency care.

*Response: The applicant's protocols and procedures for emergency situations are attached under Attachment C, Need-1.b.8., which also includes a copy of a letter from VUMC confirming its intent to enter into a transfer agreement with the applicant.*

8. The charges for obstetrical services for the proposed facility should be indicated and compared to those of existing obstetrical service providers in the proposed service area.

*Response: The only source that the applicant has been able to identify for obstetrical charges is the 2012 Tennessee Hospital Discharge Data Report created by the Tennessee Department of Health. This report shows charge data for various DRGs classified by severity under the categories of "minor", "moderate" and "major". In the case of Vaginal Delivery (DRG 560), the applicant believes the category of "minor" includes the low-risk birth cases that it will serve. The charge data from the Report for Nashville hospitals for DRG 560 in the minor category are as follows:*

*Nashville General - \$5,836*

*St. Thomas Midtown (formerly Baptist) - \$12,885*

*Vanderbilt University Hospitals - \$10,548*

*TriStar Centennial Medical Center - \$16,188*

*TriStar Summit Medical Center - \$12,976*

*The applicant's proposed charge for a delivery is \$7,500. It should be noted that this is global charge, including all services provided in connection with a delivery. The hospital charges do not include physician charges or newborn charges, so an "apples-to-apples" comparison is not possible.*

9. The applicant must document the availability of adequate professional staff to provide services 24 hours a day, seven days a week, as per licensing requirements; to deliver all designated obstetrical services in the proposal. The governing body of the birthing center must appoint a medical director who is board certified in obstetrics/gynecology or family practice. Each physician practicing or consulting in the birthing center shall have admitting privileges at a designated back-up hospital.

*Response: As noted elsewhere in the application, the applicant will have a contract with Vanderbilt University Medical Center to provide nurse midwife and medical director services at the facility. This contract will provide a level of staffing that meets or exceeds licensing and certification requirements.*

10. The applicant must demonstrate that the proposed obstetrical services will be offered in a physical environment that conforms to applicable federal standards, manufacturer's specifications, and licensing agencies' requirements.

*Response: As confirmed by the architect's letter included at Attachment C, Economic Feasibility-1(Architect Letter), the facility will comply with all applicable code and licensing requirements. In addition, the applicant is experienced in designing and furnishing birth centers to meet patient expectations for comfort and home-like amenities.*

- c. Applications that include a Change of Site for a proposed new health care institution (one having an outstanding and unimplemented CON), provide a response to General Criterion and Standards (4)(a-c) of the Guidelines for Growth.

2. Describe the relationship of this project to the applicant facility's long-range development plans, if any.

*Response: Maternity Centers of America has a long-range plan of providing the birthing center option for low-risk mothers in as many markets as possible in the U.S. In developing new birthing centers, MCA will seek collaboration with existing hospital-based obstetrical services, consistent with its vision that birthing centers are complementary to hospital-based services. The project proposed in this application is an example of the type of collaboration that MCA hopes to achieve in other markets.*

3. Identify the proposed service area and justify the reasonableness of that proposed area. Submit a county level map including the State of Tennessee clearly marked to reflect the service area. **Please submit the map on 8 1/2" x 11" sheet of white paper marked only with ink detectable by a standard photocopier (i.e., no highlighters, pencils, etc.).**

*Response: The applicant considers Davidson County as its primary service area. In light of the outpatient nature of birthing center services, the applicant expects that at least 80% of its patients will be Davidson County residents.*

*See Attachment C, Need - 3.*

4. A. 1) Describe the demographics of the population to be served by this proposal.

*Response: The demographic characteristics of Davidson County are described on Attachment C, Need - 4.A.(1).*

- 2) Using population data from the Department of Health, enrollee data from the Bureau of TennCare, and demographic information from the US Census Bureau, please complete the following table and include data for each county in your proposed service area:

*Response: The service area for the project is Davidson County, and the target population is Females Age 15-44.*

Demographic Variable/ Geographic Area	Service Area Total	State of TN Total
Total Population – Current Year	656,385	6,588,698
Total Population – Projected Year	682,330	6,833,509
Total Population - % change	3.95%	3.72%
*Target Population – Current Year (2014)	148,724	1,301,018
*Target Population – Projected Year (2016)	148,146	1,326,526

Demographic Variable/ Geographic Area	Service Area Total	State of TN Total
Target Population - % Change	(.39%)	1.96%
Target Population – Projected Year as % of Total	22.7%	19.7%
Median Age	33.9	38
Median Household Income	\$46,676	\$44,140
TennCare Enrollees	120,575	1,207,604
TennCare Enrollees as % of Total	18.37%	18.33%
Persons Below Poverty Level	115,935	1,097,876
Persons Below Poverty Level as % of Total	18.5%	17.3%

Sources: Department of Health Population data; Bureau of TennCare enrollee data; US Census demographic data

- B. Describe the special needs of the service area population, including health disparities, the accessibility to consumers, particularly the elderly, women, racial and ethnic minorities, and low-income groups. Document how the business plans of the facility will take into consideration the special needs of the service area population.

*Response: The focus of the project will be low-risk mothers. The applicant expects to be contracted with all TennCare MCOs that operated in Middle Tennessee, and the facility will be accessible to low income women.*

5. Describe the existing or certified services, including approved but unimplemented CONs, of similar institutions in the service area. Include utilization and/or occupancy trends for each of the most recent three years of data available for this type of project. Be certain to list each institution and its utilization and/or occupancy individually. Inpatient bed projects must include the following data: admissions or discharges, patient days, average length of stay, and occupancy. Other projects should use the most appropriate measures, e.g., cases, procedures, visits, admissions, etc. Projects including surgery should report the number of cases and the average number of procedures per case.

*Response: All current obstetrical services in Nashville are in hospitals. There follows a chart of Nashville hospitals providing obstetrical service with the number of live births reported by the hospitals in their JARs for the past 3 years.*

<b>Nashville Hospitals With Obstetrical Service</b>	<b><u>Live Births from JARs</u></b>		
	<b><u>2013</u></b>	<b><u>2012</u></b>	<b><u>2011</u></b>
St. Thomas Midtown	6,092	6,522	6,879
Nashville General	543	689	680

Summit Medical Center	N/A*	1,112	1,192

\*2013 JAR not available

6. Provide applicable utilization and/or occupancy statistics for your institution for each of the past three (3) years and the projected annual utilization through the two (2) years following completion of the project. Additionally, provide the details regarding the methodology used to project utilization. The methodology **must include** detailed calculations or documentation from referral sources, and identification of all assumptions.

*Response: The applicant projects a total of 345 cases the first year of operation and 480 cases the second full year. Based on the significant unmet demand for the birth center option and the project's relationship with VUMC, these projections are easily achievable.*

## ECONOMIC FEASIBILITY

1. Provide the cost of the project by completing the Project Costs Chart on the following page. Justify the cost of the project.

- All projects should have a project cost of at least \$3,000 on Line F. (Minimum CON Filing Fee). CON filing fee should be calculated from Line D. (See Application Instructions for Filing Fee)
- The cost of any lease (building, land, and/or equipment) should be based on fair market value or the total amount of the lease payments over the initial term of the lease, whichever is greater. Note: This applies to all equipment leases including by procedure or "per click" arrangements. The methodology used to determine the total lease cost for a "per click" arrangement must include, at a minimum, the projected procedures, the "per click" rate and the term of the lease.

*Response: The total lease payments over the initial 10 year term of the lease will be \$1,908,462.65. Per the letter from the building owner (Attachment C, Economic Feasibility – 1(Building FMV)), the current fair market value of the entire building is \$936,000, so the aggregate lease payments are used as building cost for the certificate of need application.*

- The cost for fixed and moveable equipment includes, but is not necessarily limited to, maintenance agreements covering the expected useful life of the equipment; federal, state, and local taxes and other government assessments; and installation charges, excluding capital expenditures for physical plant renovation or in-wall shielding, which should be included under construction costs or incorporated in a facility lease.
- For projects that include new construction, modification, and/or renovation; **documentation must be** provided from a licensed architect or construction professional that support the estimated construction costs. Please provide a letter that includes:
  - 1) a general description of the project;
  - 2) estimate of the cost to construct the project to provide a physical environment, according to applicable federal, state and local construction codes, standards, specifications, and requirements; and
  - 3) attesting that the physical environment will conform to applicable federal standards, manufacturer's specifications and licensing agencies' requirements including the most recent AIA Guidelines for Design and Construction of Hospital and Health Care Facilities.

*Response: See architect letter attached under Attachment C, Economic Feasibility – 1(Architect Letter).*

## PROJECT COSTS CHART

A.	Construction and equipment acquired by purchase:	
1.	Architectural and Engineering Fees	<u>\$28,500.00</u>
2.	Legal, Administrative (Excluding CON Filing Fee), Consultant Fees	<u>\$30,000.00</u>
3.	Acquisition of Site	<u></u>
4.	Preparation of Site	<u></u>
5.	Construction Costs	<u>\$449,083.00</u>
6.	Contingency Fund	<u></u>
7.	Fixed Equipment (Not included in Construction Contract)	<u>\$82,645.00</u>
8.	Moveable Equipment (List all equipment over \$50,000)	<u>\$32,052.00</u>
9.	Other (Specify) _____	<u></u>
B.	Acquisition by gift, donation, or lease:	
1.	Facility (inclusive of building and land)	<u>\$1,908,462.65</u>
2.	Building only	<u></u>
3.	Land only	<u></u>
4.	Equipment (Specify) _____	<u></u>
5.	Other (Specify) _____	<u></u>
C.	Financing Costs and Fees:	
1.	Interim Financing	<u></u>
2.	Underwriting Costs	<u></u>
3.	Reserve for One Year's Debt Service	<u></u>
4.	Other (Specify) _____	<u></u>
D.	Estimated Project Cost (A+B+C)	<u>\$2,530,742.65</u>
E.	CON Filing Fee	<u>\$5,694</u>
F.	Total Estimated Project Cost (D+E)	
	<b>TOTAL</b>	<u><b>\$2,536,436.65</b></u>

2. Identify the funding sources for this project.

Please check the applicable item(s) below and briefly summarize how the project will be financed. (**Documentation for the type of funding MUST be inserted at the end of the application, in the correct alpha/numeric order and identified as Attachment C, Economic Feasibility-2.**)

- ☐ A. Commercial loan--Letter from lending institution or guarantor stating favorable initial contact, proposed loan amount, expected interest rates, anticipated term of the loan, and any restrictions or conditions;
- ☐ B. Tax-exempt bonds--Copy of preliminary resolution or a letter from the issuing authority stating favorable initial contact and a conditional agreement from an underwriter or investment banker to proceed with the issuance;
- ☐ C. General obligation bonds—Copy of resolution from issuing authority or minutes from the appropriate meeting.
- ☐ D. Grants--Notification of intent form for grant application or notice of grant award; or
- ☒ E. Cash Reserves--Appropriate documentation from Chief Financial Officer.
- ☐ F. Other—Identify and document funding from all other sources.

See funding confirmation at Attachment C, Economic Feasibility- 2.

3. Discuss and document the reasonableness of the proposed project costs. If applicable, compare the cost per square foot of construction to similar projects recently approved by the Health Services and Development Agency.

*Response: The reasonableness of the construction cost is confirmed by the letter from the project architect (Attachment C, Economic Feasibility-1(Architect Letter)). The most recent birthing center project approved by the Agency was Infinity Birthing Center, CN0705-042, in Cookeville. The construction cost involved in that project was \$121.50 per sq. ft., so the construction cost for the project in this application (\$ 103.24 per sq. ft.) compares favorably. By way of additional comparison, the median cost for hospital renovation construction in certificate of need applications 2011-2013 is \$179.00 per sq. ft.*

4. Complete Historical and Projected Data Charts on the following two pages--**Do not modify the Charts provided or submit Chart substitutions!** Historical Data Chart represents revenue and expense information for the last *three (3)* years for which complete data is available for the institution. Projected Data Chart requests information for the two (2) years following the completion of this proposal. Projected Data Chart should reflect revenue and expense projections for the **Proposal Only** (i.e., if the application is for additional beds, include anticipated revenue from the proposed beds only, not from all beds in the facility).

*Note that "Management Fees to Affiliates" should include management fees paid by agreement to the parent company, another subsidiary of the parent company, or a third party with common ownership as the applicant entity. "Management Fees to Non-Affiliates" should also include any management fees paid by agreement to third party entities not having common ownership with the applicant. Management fees should not include expense allocations for support services, e.g., finance, human resources, information technology,*

*legal, managed care, planning marketing, quality assurance, etc. that have been consolidated/centralized for the subsidiaries of a parent company.*

5. Please identify the project's average gross charge, average deduction from operating revenue, and average net charge.

*Response: The gross charge for labor and delivery will be \$7,500, the average deduction will be \$2,500 and the average net charge will be \$5,000. This is a global charge and includes all services provided in connection with a labor and delivery case.*

## HISTORICAL DATA CHART

Give information for the last *three (3)* years for which complete data are available for the facility or agency. The fiscal year begins in \_\_\_\_\_ (Month).

## HISTORAL DATA CHART – OTHER EXPENSES

2018-14-01:02

### OTHER EXPENSES CATEGORIES

	Year _____	Year _____	Year _____
1.	\$ _____	\$ _____	\$ _____
2.	_____	_____	_____
3.	_____	_____	_____
4.	_____	_____	_____
5.	_____	_____	_____
6.	_____	_____	_____
7.	_____	_____	_____
<b>Total Other Expenses</b>	<b>\$ _____</b>	<b>\$ _____</b>	<b>\$ _____</b>

## PROJECTED DATA CHART – OTHER EXPENSES

### OTHER EXPENSES CATEGORIES

	Year <u>2016</u>	Year <u>2017</u>
1. Payments to Vanderbilt for Professional Services	\$ <u>343,327</u>	\$ <u>341,177</u>
<b>Total Other Expenses</b>	<b>\$ <u>343,327</u></b>	<b>\$ <u>341,177</u></b>

6. A. Please provide the current and proposed charge schedules for the proposal. Discuss any adjustment to current charges that will result from the implementation of the proposal. Additionally, describe the anticipated revenue from the proposed project and the impact on existing patient charges.

*Response: The applicant's proposed charge for a labor and delivery case will be \$7,500, which will cover all services provided in connection with a delivery.*

- B. Compare the proposed charges to those of similar facilities in the service area/adjoining service areas, or to proposed charges of projects recently approved by the Health Services and Development Agency. If applicable, compare the proposed charges of the project to the current Medicare allowable fee schedule by common procedure terminology (CPT) code(s).

*Response: The only source that the applicant has been able to identify for obstetrical charges is the 2012 Tennessee Hospital Discharge Data Report created by the Tennessee Department of Health. This report shows charge data for various DRGs classified by severity under the categories of "minor", "moderate" and "major". In the case of Vaginal Delivery (DRG 560), the applicant believes the category of "minor" includes the low-risk birth cases that it will serve. The charge data from the Report for Nashville hospitals for DRG 560 in the minor category are as follows:*

*Nashville General - \$5,836*

*St. Thomas Midtown - \$12,885*

*Vanderbilt University Hospital - \$10,548*

*TriStar Centennial Medical Center - \$16,188*

*TriStar Summit Medical Center - \$12,976*

*The applicant's proposed charge for is a delivery is \$7,500. It should be noted that this is global charge, including services provided in connection with a delivery. The hospital charges do not include professional charges or newborn charges, so an "apples-to-apples" comparison is not possible.*

7. Discuss how projected utilization rates will be sufficient to maintain cost-effectiveness; how financial viability will be ensured within two years; and demonstrate the availability of sufficient cash flow until financial viability is achieved.

*Response: As indicated in the Projected Data Chart, the project will achieve positive financial results in the first full year, and the applicant has the resources to sustain the facility until results are positive.*

8. Discuss the project's participation in state and federal revenue programs including a description of the extent to which Medicare, TennCare/Medicaid, and medically indigent patients will be served by the project. In addition, report the estimated dollar amount of revenue and percentage of total project revenue anticipated from each of TennCare, Medicare, or other state and federal sources for the proposal's first year of operation.

*Response: The facility will contract with all TennCare MCOs serving Middle Tennessee. The projected TennCare gross revenue in year 1 is \$600,000 and in year 2, \$1,080,000. In light of the services to be provided, the facility will not serve Medicare patients.*

9. Provide copies of the balance sheet and income statement from the most recent reporting period of the institution and the most recent audited financial statements with accompanying notes, if applicable. For new projects, provide financial information for the corporation, partnership, or principal parties involved with the project. Copies must be inserted at the end of the application, in the correct alpha-numeric order and labeled as Attachment C, Economic Feasibility-9.

*Response: The applicant has just been created and has no financial history. Maternity Centers of America does not have an audited financial statement, but its balance sheet and income statement as of May 31, 2014, is at Attachment C, Economic Feasibility -9.*

10. Describe all alternatives to this project which were considered and discuss the advantages and disadvantages of each alternative including but not limited to:
  - a. A discussion regarding the availability of less costly, more effective, and/or more efficient alternative methods of providing the benefits intended by the proposal. If development of such alternatives is not practicable, the applicant should justify why not; including reasons as to why they were rejected.

*Response: There is not alternative to provide the benefits of a birthing center other than to establish such a facility as proposed by this application.*

- b. The applicant should document that consideration has been given to alternatives to new construction, e.g., modernization or sharing arrangements. It should be documented that superior alternatives have been implemented to the maximum extent practicable.

*Response: The use of leased space for the project is the most cost-effective alternative for a birthing center in close proximity to VUMC, which the applicant believes is advantageous. The collaboration with VUMC with regard to midwife staffing and medical directorship, in the applicant's judgment, is clearly superior to the alternative of the applicant attempting to employ its own midwives and identify a medical director.*

## **CONTRIBUTION TO THE ORDERLY DEVELOPMENT OF HEALTH CARE**

1. List all existing health care providers (e.g., hospitals, nursing homes, home care organizations, etc.), managed care organizations, alliances, and/or networks with which the applicant currently has or plans to have contractual and/or working relationships, e.g., transfer agreements, contractual agreements for health services.

*Response: The applicant will have an agreement with VUMC under which VUMC will provide nurse midwife staffing and a medical director. See Attachment C, Need-1.b.8. In addition, the applicant will have a transfer agreement with VUMC. The applicant will enter into a clinical affiliation agreement with Vanderbilt University regarding clinical training and instruction of nursing students. The applicant plans to contract with all TennCare MCOs serving Middle Tennessee, i.e., United Healthcare Community Group, Amerigroup, and TennCare Select. The applicant will also seek contracts with major commercial insurers, including BlueCross BlueShield of Tennessee, Cigna, United Healthcare, Aetna and Humana.*

2. Describe the positive and/or negative effects of the proposal on the health care system. Please be sure to discuss any instances of duplication or competition arising from your

proposal including a description of the effect the proposal will have on the utilization rates of existing providers in the service area of the project.

*Response: The project will have positive effects on the health care system, because it will provide a birthing center option for low-risk mothers in Nashville. The only obstetrical provider in Nashville with a nurse midwife program is VUMC, but that hospital-based program is not the birthing center model. The project will not materially affect VUMC. As stated in the letter from VUMC under Attachment C, Need-1.b.8, VUMC views the project as complementary to its obstetrics program and it supports the project.*

3. Provide the current and/or anticipated staffing pattern for all employees providing patient care for the project. This can be reported using FTEs for these positions. Additionally, please compare the clinical staff salaries in the proposal to prevailing wage patterns in the service area as published by the Tennessee Department of Labor & Workforce Development and/or other documented sources.

*Response: The nurse midwife staff will be provided by VUMC under the contract previously described. The only clinical staff that will be employed are nurses. In the first year, the project will require a nursing staff of 1 full-time RN, and 2.4 RNs who will be on call to work as needed. Projected salaries and prevailing wages are as follows: 1 full-time nurse at \$46,000 per year and 2.4 nurses FTEs with each such nurse working an average of 32 hours per week at \$30/hour and \$5 per hour for time spent on call. The salary range for nurses in the service area is \$44,710 to \$68,600.*

4. Discuss the availability of and accessibility to human resources required by the proposal, including adequate professional staff, as per the Department of Health, the Department of Mental Health and Substance Abuse Services, and/or the Department of Intellectual and Developmental Disabilities licensing requirements.

*Response: The applicant's ability to obtain and maintain the midwife staff is assured through the professional services contract with VUMC. The nursing staff that is readily accessible in the local market.*

5. Verify that the applicant has reviewed and understands all licensing certification as required by the State of Tennessee for medical/clinical staff. These include, without limitation, regulations concerning physician supervision, credentialing, admission privileges, quality assurance policies and programs, utilization review policies and programs, record keeping, and staff education.

*Response: The applicant has reviewed and understands all applicable licensing and certification requirements for professional staff.*

6. Discuss your health care institution's participation in the training of students in the areas of medicine, nursing, social work, etc. (e.g., internships, residencies, etc.).

*Response: The applicant plans to enter into a Clinical Affiliation Agreement with Vanderbilt University, so that the applicant's facility will be a site for the clinical training and instruction of students at the Vanderbilt School of Nursing.*

7. (a) Please verify, as applicable, that the applicant has reviewed and understands the licensure requirements of the Department of Health, the Department of Mental Health

and Substance Abuse Services, the Department of Intellectual and Developmental Disabilities, and/or any applicable Medicare requirements.

*Response: The applicant has reviewed and understands the licensure requirements of the Department of Health for Birthing Centers.*

- (b) Provide the name of the entity from which the applicant has received or will receive licensure, certification, and/or accreditation.

*Licensure: Response: Tennessee Department of Health*

*Accreditation: Response: Commission on the Accreditation of Birth Centers*

- (c) If an existing institution, please describe the current standing with any licensing, certifying, or accrediting agency. Provide a copy of the current license of the facility.

*Response: Not applicable.*

- (d) For existing licensed providers, document that all deficiencies (if any) cited in the last licensure certification and inspection have been addressed through an approved plan of correction. Please include a copy of the most recent licensure/certification inspection with an approved plan of correction. Please also discuss what measures the applicant has or will put in place to avoid being cited for similar deficiencies in the future.

*Response: Not applicable.*

8. Document and explain any final orders or judgments entered in any state or country by a licensing agency or court against professional licenses held by the applicant or any entities or persons with more than a 5% ownership interest in the applicant. Such information is to be provided for licenses regardless of whether such license is currently held.

*Response: Not applicable.*

9. Identify and explain any final civil or criminal judgments for fraud or theft against any person or entity with more than a 5% ownership interest in the project.

*Response: Not applicable.*

10. If the proposal is approved, please discuss whether the applicant will provide the Tennessee Health Services and Development Agency and/or the reviewing agency information concerning the number of patients treated, the number and type of procedures performed, and other data as required.

*Response: The applicant will provide the Agency and the Department of Health with requested information regarding number of patients, number and types of procedures and other data as required.*

## PROOF OF PUBLICATION

**Attach the full page of the newspaper in which the notice of intent appeared with the mast and dateline intact or submit a publication affidavit from the newspaper as proof of the publication of the letter of intent.**

*Response: A full page from The Tennessean dated June 10, 2014, is attached immediately following this page.*

## NOTIFICATION REQUIREMENTS

### **(Applies only to Nonresidential Substitution-Based Treatment Centers for Opiate Addiction)**

Please note that Tennessee Code Annotated 68-11-1607(c)(3) states that "...Within ten (10) days of filing an application for a nonresidential substitution-based treatment center for opiate addiction with the agency, the applicant shall send a notice to the county mayor of the county in which the facility is proposed to be located, the member of the House of Representatives and the Senator of the General Assembly representing the district in which the facility is proposed to be located, and to the mayor of the municipality, if the facility is proposed to be located within the corporate boundaries of a municipality, by certified mail, return receipt requested, informing such officials that an application for a nonresidential substitution based treatment center for opiate addiction has been filed with the agency by the applicant."

Please provide this documentation.

## DEVELOPMENT SCHEDULE

Tennessee Code Annotated § 68-11-1609(c) provides that a Certificate of Need is valid for a period not to exceed three (3) years (for hospital projects) or two (2) years (for all other projects) from the date of its issuance and after such time shall expire; provided, that the Agency may, in granting the Certificate of Need, allow longer periods of validity for Certificates of Need for good cause shown. Subsequent to granting the Certificate of Need, the Agency may extend a Certificate of Need for a period upon application and good cause shown, accompanied by a non-refundable reasonable filing fee, as prescribed by rule. A Certificate of Need which has been extended shall expire at the end of the extended time period. The decision whether to grant such an extension is within the sole discretion of the Agency, and is not subject to review, reconsideration, or appeal.

### NOTIFICATION OF INTENT TO APPLY FOR A CERTIFICATE OF NEED

This is to provide official notice to the  
Health Services and Development Agen-  
cy and all interested parties, in accord-  
ance with T.C.A. § 68-11-1601 et seq., and  
the Rules of the Health Services and De-  
velopment Agency, that:

Baby + Company Nashville, a proposed  
Birthing Center owned by: Baby + Com-  
pany Nashville 1 LLC with an ownership  
type of limited liability company intends  
to file an application for a Certificate of  
Need to establish a Birthing Center in  
leased space at 2106 21st Avenue, Nash-  
ville, TN 37212. The facility will include 5  
birthing suites, 3 examination rooms, and  
various support areas. The facility will oc-  
cupy approximately 4,350 sq. ft. The pro-  
ject does not involve licensed beds, the  
acquisition of major medical equipment  
or the initiation of a health care service  
for which a certificate of need is re-  
quired. The total project cost is  
\$2,536,436.65.

The anticipated date of filing the applica-  
tion is: June 13, 2014

The contact person for this project is  
Dan Elrod, Attorney, who may be  
reached at: Butler Snow LLP, 150 3rd Ave-  
nue South, Suite 1600, Nashville, TN,  
37201 615 / 651-6702.

Upon written request by interested par-  
ties, a local Fact-Finding public hearing  
shall be conducted. Written requests for  
hearing should be sent to:

Health Services and Development  
Agency  
Andrew Jackson Building, 9th floor  
502 Deaderick Street  
Nashville, Tennessee 37243

(A) Any health care institution wishing to  
oppose a Certificate of Need application  
must file a written notice with the Health  
Services and Development Agency no later  
than fifteen (15) days before the regu-  
larly scheduled Health Services and De-  
velopment Agency meeting at which the  
application is originally scheduled; and  
(B) Any other person wishing to oppose  
the application must file written objec-  
tion with the Health Services and Devel-  
opment Agency at or prior to the consid-  
eration of the application by the Agency.

The Tenant's Advantage  
cresa.com

June 5, 2014

Dan Baughiera  
Eakin Partners  
1600 Division Street, Suite 600  
Nashville, TN 37203

RE: Letter of Intent for the proposed lease between Baby+Company Nashville 1 LLC ("Tenant") and David Horowitz ("Landlord") at 2106 21<sup>st</sup> Ave.

Dear Dan:

This Letter of Intent is intended to outline the terms and conditions under which Tenant would enter into negotiations with Landlord to lease space at 2106 21<sup>st</sup> Ave (the "Building"). This Letter of Intent is expressly contingent upon final corporate approval by Tenant and the negotiation and execution of a mutually agreeable lease document.

**LOCATION:**  
2106 21<sup>st</sup> Ave S  
Nashville, TN 37212

**PREMISES:**  
Approximately 9,200 rentable square feet on the 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> floors

**POSSESSION DATE:**  
October 1, 2014

**LEASE COMMENCEMENT:**  
January 1, 2015

**TERM OF LEASE:**  
123 Months

**FREE RENT:**  
3 Months

**BASE RENTAL:**  
Years 1-3 \$120,000 annually  
Years 4-5 \$149,000 annually  
Years 6-10 \$179,000 annually

June 5, 2014

The Tenant's Advantage  
cresa.com**ESCALATION:**

2% annual escalations

**TENANT IMPROVEMENT ALLOWANCE:**

None

**EXISTING CONDITION:**

Landlord will deliver the Premises in "as-is" and "where-is" condition, however, Landlord shall be responsible to deliver the Premises demised, Building structural systems; roof system; plumbing systems (to include all connections and distribution of plumbing to existing internal appliances); window systems; window covering; elevator systems; restrooms; the base building HVAC mechanical systems; the base building electrical systems; the fire and life safety systems; the floor and the ceiling free from latent and structural defects, in good and proper working order and in full compliance with all laws, building codes and ordinances which govern the use and occupancy of office buildings.

**TENANT IMPROVEMENT CONSTRUCTION:**

Tenant shall self-manage the construction using appropriately licensed architects, general contractors, sub-contractors, and other vendors. Landlord agrees to coordinate and work with Tenant to select and approve the architect, general contractor, sub-contractors, and other vendors necessary to complete the process of tenant improvement and relocation. Tenant agrees to perform the construction management within the reasonable guidelines of the building rules and regulations and agrees to coordinate in kind with Landlord to select and approve the General Contractor, Sub Contractors, and other vendors necessary to complete the process of tenant improvement and relocation.

**RIGHT OF FIRST REFUSAL:**

Landlord shall provide a Right of First Refusal for the 4,650 SF on the 2<sup>nd</sup> floor. *Handwritten: 10/1/14*

**SECURITY DEPOSIT:**

Tenant shall provide security deposit equal to One Month's Base Rent, TBD based on review of financials.

**SIGNAGE:**

Tenant shall be permitted, at its sole cost, to install signage on the Building Monument sign as well as the Building provided it meets Landlord approval and all city/governmental signage codes.

**ASSIGNMENT/SUBLEASE:**

Tenant may assign the Lease or sublet all or a portion of the Premises with Landlord's prior written consent, which will not be unreasonably withheld.

**PARKING:**

Tenant shall have three dedicated parking spaces located immediately adjacent to the entrance to the building. One (1) dedicated parking space shall be reserved and identified as an AMBULANCE space, no parking anytime and two (2) dedicated spaces shall be reserved for "Maternity Center Clients Only". In addition to the reserved parking spaces, Tenant shall have the right on non-exclusive use, in common with others, of the outdoor, ground level automobile parking.

Partners in Global Real Estate

June 5, 2014

The Tenant's Advantage  
cresa.com

**OPTION TO TERMINATE:**

Tenant shall have the right to terminate with six (6) months advance written notice after the fifth (5<sup>th</sup>) year of the lease. As penalty, Tenant shall pay all unamortized costs of leasing (i.e. Tenant improvements, free rent, brokerage commission and legal fees) plus four (4) month's rent penalty. Leasing costs shall be determined by aggregating the entire amount creating an amortization schedule over 120 months at 8% per annum.

**EXCLUSIVITY:**

Landlord shall not lease space in the Building to any competing birthing centers, doula's, lactation, or midwifery unless the Tenant has subleased 50% or more of its original Premises.

**BROKERAGE:**

Landlord acknowledges Cresa as Tenant's broker and shall pay a commission pursuant to a separate agreement.

**CONTINGENCEIS:**

This Letter of Intent is contingent upon the approval of Tenant's Board of Directors, a mutually agreed upon space plan and pricing as well as the receipt of a certificate of need from the Tennessee Health Services and Development Agency.

We look forward to completing a transaction with you as soon as possible.

Thank you, Dan, for your time and consideration.

Respectfully,

A handwritten signature in dark ink, appearing to read "P. Hoeselton", written over a horizontal line.

VUMC Letter and Emergency Protocols

VANDERBILT UNIVERSITY

MEDICAL CENTER

June 10, 2014

*C. Wright Pinson, M.B.A., M.D.  
Deputy Vice Chancellor for Health Affairs  
Chief Executive Officer, Vanderbilt Health System  
Senior Associate Dean for Clinical Affairs*

Ms. Cara Osborne  
Executive Vice President  
Maternity Centers of America  
5302 Village Parkway  
Suite #3  
Rogers, AR 72758

Dear Ms. Osborne,

This letter is to confirm our continued discussions regarding Baby+Company Nashville 1 LLC proposal to establish a birthing center.

As discussed, Vanderbilt University Medical Center (VUMC) is willing to provide the Medical Director and midwives as mutually determined to support the birth center. The details and other terms of an agreement under which VUMC will provide the services described will be memorialized in a definitive agreement acceptable to both parties.

In addition, it is VUMC's intent to provide the necessary transfer agreement from the center, to be located at 2106 21<sup>st</sup> Avenue South, Nashville, Tennessee, 37215, to VUMC, located at 1211 Medical Center Drive, Nashville, Tennessee, 37232.

As the leader of midwifery services in Middle Tennessee, VUMC views this project as complementary to obstetrical services and other resources in the market. Low-risk maternity patients will welcome the availability of the birth center model in the community.

Sincerely,

A handwritten signature in black ink, reading 'C. Wright Pinson'.

## P. Intrapartum Transfer

### Policy

1. Clients who present with evidence of intrapartum risk will be transferred to the hospital for physician management at VUMC.
2. In non-emergency situation, means of transfer will be decided upon by CNM and family. This will generally be by private car, but is dependent upon status of labor and condition of mother.
3. A copy of the prenatal chart will be printed and taken to the hospital with the mother or infant transferred.
4. The attending CNM will accompany the family to the hospital.
5. Emergency transfer procedure and emergency timesheet are in a prominent location in the birthing suites.
6. Emergency transfer procedure for mother and infant will be known by all staff members, and drills will be held at regular intervals.

### Procedure

1. Criteria
    - a. In general, the following situations will require ambulance transfer:
      - 1) Cord prolapse
      - 2) Uncontrolled hemorrhage
      - 3) Maternal seizures
      - 4) Severe fetal distress
      - 5) Newborn requiring resuscitation during transport
      - 6) Any transport required with birth imminent
      - 7) Any situation in which it is CNM's judgment that transport is best accomplished per ambulance
    - b. In an emergency, if CNM judges that transport can be accomplished faster via private car, and ambulance personnel and equipment are not needed, car transport may be initiated.
  2. Non-Emergency Transfer
    - a. The decision to transfer will be made by the CNM and family.
    - b. The CNM will notify the receiving hospital (VUMC) of the transfer, including the receiving MD and L&D Charge RN.
    - c. The mother will be prepared for transfer, records completed, and duplicate records compiled.
    - d. Mother will be assisted to vehicle.
-

- e. The CNM will accompany family to hospital and remain with them until the situation has been resolved.

### 3. Emergency Transfer

- a. As soon as the problem is identified, the CNM will inform the consulting physician. She/he will then inform the appropriate unit and individuals at the receiving hospital.
- b. The CNM will attend to the mother as necessary and accompany client in the ambulance to the hospital.
- c. The birth assistant will:
  - 1) Call Ambulance Service, using the emergency phone number, and state:  
"Baby+Company - Nashville has emergency maternal or neonatal transfer to Labor and Delivery/NICU at VUMC. Come to the side door. Our phone is 372-4560.
  - 2) Give record to CNM for copying at the hospital.
  - 3) Assist CNM in attending mother and preparing for transfer.
  - 4) Record all times and other notes on emergency timesheet.
  - 5) Meet ambulance attendants.
  - 6) After family and CNM have left center, call receiving unit with:
    - a) estimated time of arrival
    - b) status report
  - 7) Perform usual clean-up and closure of center
- d. For infant transfer:
  - 1) CNM will place infant in warm blankets in mothers arm with proper oxygen; chemical mattress may be used if needed. Will see that DeLee suction and ambubag are readily available.
  - 2) Record will be copied before leaving the birth center if time allows, otherwise will be printed out at the primary transfer hospital.
  - 3) Transport cord bloods and placenta to if infant going to VUMC.

### 4. Procedure After Arrival at VUMC

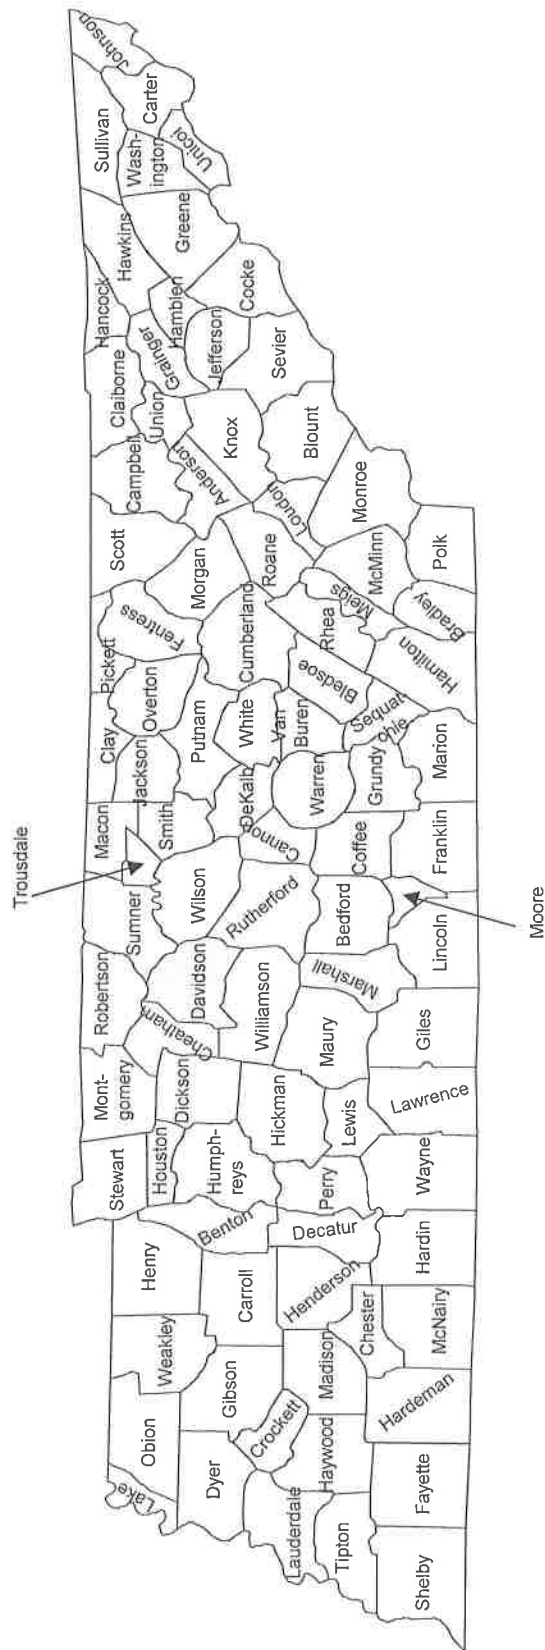

- a. Non-emergency maternal transfer-to the primary transfer hospital
    - 1) Proceed to Labor & Delivery.
    - 2) Wheelchair is available at front desk.
    - 3) Ensure that BABY+COMPANY - NASHVILLE record is copied for the primary transfer hospital.
  - b. Emergency maternal transfer-to the primary transfer hospital
    - 1) Proceed in ambulance to Emergency entrance. Admission will be a direct admit to L&D.
    - 2) Ambulance attendants will take mother via stretcher to Labor & Delivery.
-

- 3) Ensure that BABY+COMPANY - NASHVILLE record is copied for hospital chart.
- c. Neonatal transfer to the primary transfer hospital
  - 1) Proceed to 5<sup>th</sup> floor of VUMC.
  - 2) Ensure that mother's records are copied for the primary transfer hospital chart.
6. The attending CNM is responsible for completion of all records upon return to the birth center, including adding a copy of the primary transfer hospital delivery summary to the BABY+COMPANY - NASHVILLE record.
7. A list of all emergency numbers is posted in the desk drawer of each birth room. This list shall be maintained and updated as changes occur.

May 2014

Maternity Center of Nashville, LLC &

Tennessee Commercial Real estate Advisors, LLC d/b/a Cresa Nashville  
2505 21<sup>st</sup> Ave South  
Suite 201  
Nashville, TN 37212

Per your written request, please accept this letter as an indication of value for the property and improvements located at 2106 21<sup>st</sup> Ave South, Nashville, TN 37212.

The value for the property and improvements located at 2106 21<sup>st</sup> Ave South, Nashville, TN 37212 is \$960,000. This value is based on the value determined by the Davidson County Property Assessor for fiscal year 2014.

Please note that this letter does not constitute an offer to sell the property. There are multiple methodologies for determining value. Further, there are many considerations that an owner must weigh when determining a sale price, some of which may not be quantifiable using standard appraisal and valuation methods.

Respectfully,

  
\_\_\_\_\_  
David Horowitz  
Owner

RE: Baby+Company Nashville 1 LLC  
2106 21<sup>st</sup> Avenue South, Nashville, TN

Dear Ms. Hackett,

In regards to the proposed Certificate of Need (CON), we are in the process of preparing plans for the remodel and conversion of the existing facility for the Baby+Company Nashville 1 LLC. The remodel and conversion will encompass the demolition of all existing rooms, equipment, mechanical, electrical and plumbing systems and replacement as necessary to fit the needs of the Birthing Center.

The plans call for five (5) birthing center rooms, three (3) exam rooms, a classroom, a kitchen / family room, support offices, accessible restrooms, storage, utility and entry lobby spaces. The completed space will encompass 4,350 gsf (including shared building spaces).

We have reviewed the Square Footage and Cost Per Square Footage Chart that has been prepared for the CON to the state of Tennessee for this remodel and conversion. The proposed cost of \$449,126 or an average of \$103.25 / SF for a 4,350 square foot project appears reasonable and accurate in today's construction market.

Based on our experience we believe the remodeled facility will meet the Guidelines for Design and Construction of Health Care Facilities and all applicable local, state and federal standards.

We have reviewed the applicable building codes adopted by the Authority Having Jurisdiction (AHJ). As of the date of this letter they include:

**Applicable Local Codes – City of Nashville**

2006 International Building Code with local amendments  
2006 International Residential Code with local amendments  
2006 International Energy Conservation Code  
2006 International Plumbing Code with local amendments  
2006 International Mechanical Code with local amendments  
2006 International Fuel Gas Code with local amendments  
2006 International Fire Code with local amendments  
2011 National Electric Code with local amendments  
2003 ICC / ANSI A117.1 Accessible and Usable Buildings and Facilities  
2006 Life Safety Code (NFPA 101) with local amendments

**Building Classification**

Occupancy: Business  
Type V-B Construction

If you have any further questions, please do not hesitate to call. Sincerely,

## LETTER OF INTENT

The Publication of Intent is to be published in the The Tennessean which is a newspaper  
(Name of Newspaper)  
of general circulation in Davidson, Tennessee, on or before June 10, 2014,  
(County) (Month / day) (Year)  
for one day.

This is to provide official notice to the Health Services and Development Agency and all interested parties, in accordance with T.C.A. § 68-11-1601 *et seq.*, and the Rules of the Health Services and Development Agency, that:

Baby + Company Nashville, a proposed Birthing Center  
(Name of Applicant) (Facility Type-Existing)

owned by: Baby + Company Nashville 1 LLC with an ownership type of limited liability company

intends to file an application for a Certificate of Need to establish a Birthing Center in leased space at 2106

21<sup>st</sup> Avenue, Nashville, TN 37212. The facility will include 5 birthing suites, 3 examination rooms, and various support areas. The facility will occupy approximately 4,350 sq. ft. The project does not involve licensed beds, the acquisition of major medical equipment or the initiation of a health care service for which a certificate of need is required. The total project cost is \$2,536,436.65.

The anticipated date of filing the application is: June 13, 2014

The contact person for this project is Dan Elrod Attorney  
(Contact Name) (Title)

who may be reached at: Butler Snow LLP 150 3<sup>rd</sup> Avenue South, Suite 1600  
(Company Name) (Address)

Nashville TN 37201 615 / 651-6702  
(City) (State) (Zip Code) (Area Code / Phone Number)

[Signature] 6/10/2014 Dan.Elrod@butlersnow.com  
(Signature) (Date) (E-mail Address)

The Letter of Intent must be filed in triplicate and received between the first and the tenth day of the month. If the last day for filing is a Saturday, Sunday or State Holiday, filing must occur on the preceding business day. File this form at the following address:

Health Services and Development Agency  
Andrew Jackson Building, 9<sup>th</sup> Floor  
502 Deaderick Street  
Nashville, Tennessee 37243

(A) Any health care institution wishing to oppose a Certificate of Need application must file a written notice with the Health Services and Development Agency no later than fifteen (15) days before the regularly scheduled Health Services and Development Agency meeting at which the application is originally scheduled; and (B) Any other person wishing to oppose the application must file written objection with the Health Services and Development Agency at or prior to the consideration of the application by the Agency.

RE: Certificate of Need Application, Baby + Company Nashville, CN1406-022

Dear Mr. Grimm:

Responses to the questions in your letter dated June 25, 2014, are below. Please let us know if you need additional information.

**1. Section A, Item 3 (Owner)**

The June 2, 2014 documentation of Baby + Company Nashville 1 LLC's status as a Delaware Corporation is noted. Please also confirm the status of applicant's registration to do business in Tennessee.

**Response:** *Baby + Company Nashville LLC filed its application for admission in Tennessee on June 23, 2014. A copy of the application is attached as Attachment A. The Applicant has complied with requirements for admission.*

Since Licensure Rules indicate the entity will be governed by a board with specific oversight responsibilities (Chapter 1200-8-24-.04), who will be the members of the board? In your response, please also briefly describe the organization of the board in such a manner that the process it will use to carry out its general responsibilities for the clinical, business and financial affairs of the proposed Birthing Center can be fully appreciated.

**Response:** *The Board members will be as follows: Dr. Cara Osborne, MSN, CNM, ScD, who is the CEO and EVP of Clinical Services for Baby + Company; Dr. Pamela Jones, DNP, RN, NEA-BC, Chief Nursing Officer of VUMC; and Angela Wilson-Liverman MSN,*

*The Pinnacle at Symphony Place  
150 3rd Avenue South, Suite 1600  
Nashville, TN 37201*

DAN H. ELROD  
615.651.6702  
dan.elrod@butlersnow.com

T 615.651.6700  
F 615.651.6701  
www.butlersnow.com

CNM, FACNM, Department of Obstetrics and Gynecology, Division of Midwifery and Advanced Practice at VUMC. The biographical summaries of the Board members are attached under Attachment B. The individuals described in Attachment B are familiar with the governance responsibilities in the licensing rules, and they have the clinical, financial and business experience to fulfill these responsibilities.

**2. Section A, Item 6 (Legal Interest in Site) and Section B, Project Description, Item II.B**

The June 5, 2014 Letter of Intent (LOI) and discussion of the 4,350 square feet (SF) of leased space for the proposed facility with Square Footage Chart is noted. The LOI identifies what appears to be a total of approximately 9,200 rentable SF on the 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> floors of the existing building. The letter also notes that the landlord shall provide a "Right of First Refusal for the 4,650 SF on the 2<sup>nd</sup> floor". No mention is made of the 4,350 square feet identified by the applicant for the proposed birthing center as reflected in this section, the SF Chart and the Project Costs Chart. Please clarify.

**Response:** *The Applicant recognizes that the LOI is somewhat confusing, but it was prepared in this manner at the insistence of the landlord. The total rentable square feet in the entire building is 9,200 sq. ft. as referenced on page 1. Page 2 of the LOI references the Applicants right of first refusal with regard to 4,650 sq. ft. on the second floor, thus the amount of space initially dedicated to the birthing center is 4,350 sq. ft. (9,200-4,650 = 4,350).*

The lease payment schedule in the 6/5/14 LOI appears to total to a \$1,374,000 lease cost over 10 years in lieu of the \$1,908,462.65 lease cost in the Project Costs Chart on page 17. It is unclear if the amount applies to the 9,200 total square feet or the 4,650 SF on the 2<sup>nd</sup> floor mentioned in the LOI. In addition, it is unclear where how the applicant came up with a \$1,908,463 lease costs for the project. Please explain.

**Response:** *In the course of responding to this question, the Applicant realized that the total rent had been stated incorrectly in the original application. The total rent for 10 years is \$1,255,187.86 instead of \$1,908,462.65. A detailed calculation of the rent for 10 years is included under Attachment C. A revised Project Costs Chart and revised page 16 are attached under Attachment D.*

Please include a brief description of the existing building that will house the proposed birthing center noting year built, # floors, zoning status, and a brief history of its use, including current occupancy status by other tenants and nature of same.

**Response:** *The building was constructed in 1996. It is a 2-story, wood-frame building zoned as Commercial Limited, which will accommodate Birthing Center occupancy. The building also has a basement, which is why the LOI references 3 floors. The basement has not been completed for occupancy, and The Applicant's lease will not include the basement. The current tenant for the building is Davishire Interiors, which will soon be*

*vacating the building. The Applicant will be able to undertake necessary renovations timely if the certificate of need is granted.*

**3. Section B, Project Description, Item II.A. and Item IV (Floor Plan)**

In reviewing with the June 4, 2014 letter from the architect, please discuss and point out on the floor plan how and from what location(s) the applicant intends to provide requisite laboratory and food services as required in the Department of Health licensure rules 1200-8-24-.06 (7) and (12), respectively. Where will the applicant clean and re-sterilize instruments and equipment?

**Response:** *The plan included with application under Attachment B, IV indicates the room for the required laboratory. The food service requirements in 1200-8-24-.06(12) will be provided from the room labeled "Family Room/Kitchen" in the floor plan filed with the original application. In the course of responding to this question, the Applicant realized the floor plan filed with the original application had inadvertently omitted the "Sterilization Room", the space in which instruments and equipment will be cleaned and re-sterilized. A correct floor plan is attached under Attachment E.*

Will the Birthing Center design conform to the 2010 AIA Guidelines for Design and Construction of Healthcare Facilities (or more recent version if available)?

**Response:** *Yes.*

**4. Section C, Need, Item 1 (State Health Plan)**

**State Health Plan, Access** – the absence of a licensed birthing center is noted. Given the demographics provided on page 15 as to % of county population that are TennCare recipients & the % below the poverty level, please discuss the barriers to access facing females of child bearing age. In your response, please include a brief description of how the applicant plans to reach this population in creating awareness and demand for its services. In your response, please also describe what opportunities exist for provider participation in all the TennCare managed care plans offered in Davidson County, including new plans being offered statewide beginning 2015.

**Response:** *Section 2301 of the Patient Protection and Affordable Care Act requires Medicaid plans to reimburse for services in a licensed birthing center. The Applicant understands that TennCare MCO plans already include the existing birthing centers in the state their networks. In light of the fact that there is currently no birthing center in the Nashville area, and in light of section 2301 of PPACA, the Applicant is confident that it will be included in all TennCare plans covering enrollees in Middle Tennessee, including those that may be offered in 2015 and subsequent years. The Applicant has been in contact with the TennCare plans currently serving Middle Tennessee, and it has received provider applications from them.*

**State Health Plan, Health Care Workforce** – the comments are noted, In terms of using the facility for clinical training, would the opportunity be open to other schools of nursing in addition to Vanderbilt? Would training be open to nurse midwives & other clinical professionals of the other Birthing Centers in the state. Please discuss.

**Response:** *The Applicant is open to working with other schools of nursing for use of the facility as training site. The Applicant believes that the clinical staff at other Birthing Centers will have already been properly trained in order to comply with licensing and accreditation standards. The Applicant, however, will invite clinical staff from other Birthing Centers to participate in continuing education programs at the proposed facility.*

**5. Section C, Need, Item 1, Project Specific Criteria, Birthing Centers**

**Item 1:**

The comments are noted. Other than the absence of a birthing center in the county, an appreciation of the adequacy, capacity and utilization of existing hospital OB resources and utilization would be appreciated. Hospital capacity measures from the Joint Annual Report that may help illustrate same include OB bed complements & their utilization. Please provide the requested metrics for the response to HSDA Examiner's question # 8 (Section C, Need, Item 5) on page 5 of this correspondence.

**Response:** *The requested metrics have been provided in response to question 8 below.*

The question also provides an opportunity to address special circumstances which require additional services. One area of interest might be any special circumstances arising out of expanded insurance coverage options related to the provision of "essential benefits" under the Affordable Care Act being offered through the Health Insurance Exchange. Another may be the aspect of enhancing access for TennCare recipients through the applicant's addition to MCO provider networks. Please comment

**Response:** *As noted above, section 2301 of PPACA requires Medicaid plans to reimburse for services at Birthing Centers, thus assuring the inclusion of the propose facility in TennCare networks. In addition, the Applicant believes there is a growing awareness among women and families of the cost and health benefits associated with low-risk deliveries in Birthing Centers, as evidenced by the 2013 survey Childbirth Connection, Listening to Mothers III, which found that 25% of women who have given birth in the past year would prefer a birthing center if available.*

**Items 2 and 3:**

For a further appreciation of the applicant's Davidson County service area, please complete the following table providing a summary of the total eligible female population and the total number of births from 2010 through the most recent year that birth data is available (e.g.2013).

**Births by Female Residents of Davidson County, 2010-2013**

<b>Year</b>	<b>Female Population ages 15-44</b>	<b>Births to Female Residents ages 15-44</b>	<b>Births at Hospitals In County</b>	<b>Female Resident Births as a % of Hospital Births</b>
2010	147,746	9,557	15,042	63.5%
2011	148,719	9,601	15,204	63.1%
2012	148,795	9,721	15,567	62.4%
2013	148,927	not available	11,189	not available
% Change	.8%	1.7% (2010-2012)	3.5% (2010-2012)	-1.7% (2010-2012)

**Item 4** – what indications does the applicant have that the facility will be well received by TennCare MCOs? A discussion of provider network participation for this type of service would be helpful and any related information pertaining to low risk births by covered enrollees would be helpful here.

**Response:** See discussion under questions 4 and 5 above.

Please also include a description of arrangements that will be made to facilitate use by ethnic minorities such as Hispanic speaking persons.

**Response:** Marketing and informational materials will be available in both Spanish and English. Translation services will be available through the service known as Language Line Solutions, which is a well-established translation service provider serving health care providers, government agencies and businesses.

**Item 5** – please include the additional metrics such as # OB beds and estimated bed occupancy.

**Response:** See metrics provide in question 8 below.

**Item 6** – the applicant's plans to contract with VUMC as the back-up emergency transfer hospital as confirmed in the June 10, 2014 letter from C. Wright Pinson, MBA, MD (CEO of Vanderbilt Health System) is noted. Review of the draft emergency protocols reveals that transfer by ambulance may be warranted in certain circumstances. Has the applicant also contacted local emergency ambulance services? If so, please include a letter(s) of support for the project from same.

**Response:** The Applicant has been in contact with the local ambulance service, MooreCare Ambulance Service. The ambulance service has no reservations about serving the facility, but did not feel that it was appropriate for it to submit a letter of support. The discussions with the ambulance service included plans for an orientation meeting when the facility is open and quarterly drills.

The applicant states that the proposed birthing center is approximately 1 mile from VUMC. Please provide a map showing (MapQuest or google maps) with facility locations & name (s) of streets between same.

**Response:** *The requested map is included under Attachment F.*

**Item 7** – please address consideration given to the use of fetal monitors at the proposed birthing center in circumstances where risk increases after the labor and birthing process begins. Please discuss the means and criteria by which the applicant intends to manage this process if fetal monitoring is unavailable to detect fetal distress.

**Response:** *The facility will comply with the standards for birthing centers established by the Commission for the Accreditation of Birth Centers, which require monitoring by use of intermittent auscultation with a hand held Doppler under the guidelines adopted by the American Congress of Obstetricians and Gynecologists (ACOG).*

**Item 8** – hospital IP charges can be compared for Vaginal Deliveries (DRG540) on a low – high severity of condition scale using information from the 2012 Tennessee Hospital Charge Reports. This report can be found on the Department of Health/Health Statistics link to the toolbox on the HSDA website. The applicant can also include a comparison to charges of other existing birthing centers in Tennessee located in Knox, Wayne, Putnam and Monroe Counties (all of these birthing centers are provider members of Blue Cross's TennCare MCO plan). Please review the information provided in the TDH report (e.g. the # of procedures by severity and average/median charge) and include a discussion of the findings in your response.

**Response:** *In the information in the application is from the 2012 Tennessee Hospital Charge Reports document for DRG 560, which is Vaginal Deliveries. DRG 540 is Caesarean Deliveries. The information in the application is for Vaginal Deliveries classified as "minor", on the belief that this classification most closely relates to the low risk births that will occur in the proposed Birthing Center. The table below includes all categories and the numbers of births associated with each category. As noted in the original application, the patient charges in the Tennessee Hospital Charges Report do not provide a meaningful comparison to the Applicant's charges, because the hospital charges do not include any professional fees or newborn charges, whereas the Applicant's charge is all inclusive.*

**Vaginal Delivery (DRG 560)**

Hospital Name	Minor Number	Charge	Moderate Number	Charge	Major Number	Charge
Nashville General Hospital	181	5,836	158	6,943	60	8,462
St. Thomas Midtown Hospital	2,259	12,885	1,211	14,961	185	20,293
Vanderbilt University Hospital	1,266	10,548	1,287	11,399	251	14,042

*According to the Department of Health website, the three Birthing Centers licensed in the state are Infinity Birthing Center in Cookeville, Lisa Ross Birth and Women's Center in Knoxville, and Women's Wellness and Maternity Center in Madisonville. The Applicant has been informed that the Birthing Centers are not required to file Joint Annual Reports, and the Applicant is unaware of any other source of patient information regarding the Tennessee birthing centers.*

**Item 9** – Your response is noted.

Please identify who the applicant proposed to appoint as the Medical Director and provide documentation of the medical director's professional credentials, including the following: a copy of proposed medical director's board certificate, curriculum vitae, letter of hospital obstetrical admitting privileges, and the number of deliveries which the appointee has supervised for each of the past three years.

**Response:** *VUMC has not yet identified the individual it will provide as Medical Director. The Medical Director will be board certified in obstetrics and gynecology, on the faculty of Vanderbilt University School of Medicine and an experienced clinician. In light of Vanderbilt's national reputation medical education and clinical services, the Applicant is confident that a highly-qualified, experienced physician will serve as Medical Director. The Applicant will provide the Agency staff with the name and credentials of the Medical Director when the individual has been identified.*

Please provide documentation of the professional credentials for each of the physicians who will be practicing at the proposed birthing center, including the following: a copy of the physician's board certificate, curriculum vitae, letter of hospital obstetrical admitting privileges and the number of deliveries which the appointee has supervised for each of the past three years.

**Response:** *Birthing Centers are staffed solely by midwives and have no physicians on staff other than the Medical Director.*

**6. Section C, Need, Item 2 and Section C, Orderly Development, Item 2**

It appears that physicians of the OB service of VUMC are key potential referral sources for the applicant. Given the other hospitals with OB services in the county and the large private practice physician community, please describe the applicant's plans to develop its referral base, create awareness and otherwise create a market niche for the proposed birthing center in the medical community.

**Response:** *Birthing Centers do not rely on referrals from physicians and hospitals, but patients chose the Birthing Center option as a matter of self-selection. The Applicant will engage in a public awareness campaign in the Nashville area through various means, including communication with primary care physicians and clinics, the Metro Nashville Health Department and social services organizations.*

Please also comment on similar development activities with health insurance, local business community leadership and elected public officials to gain support for the facility. What are the expectations of these parties, if any, concerning the applicant's leadership and role in addressing the health care needs of the target maternal population located in the county?

***Response:*** *Considering that 25% of recent mothers would prefer the birth center option if available, and in light of the economic and health value associated with Birthing Centers as confirmed by the coverage mandate in PPACA, the Applicant does not believe there will be any lack of support from community and political leadership. The Applicant anticipates working collaboratively with primary care physicians, health department sites and women's health advocates to promote awareness and understanding of the Birthing Center option.*

Please provide descriptions of the applicant's plans to coordinate the referral of potential OB patients to other providers that do not qualify for admission to the proposed birthing center. Please also discuss the plans of members of the applicant's physician and clinical staff to coordinate patient care with the medical staffs of other hospitals that have the capacity to absorb the additional volumes from the applicant's birthing service.

***Response:*** *If a patient who is determined not to be a candidate for the Birthing Center option, she will be provided a list of obstetricians and other resources that she can use in determining her alternative. In the case of an urgent referral, the patient will be referred to VUMC, consistent with VUMC providing the clinical staff for the Birthing Center. In this situation, the patient's relevant information will be transmitted immediately to labor and delivery staff at VUMC in order to expedite care.*

**7. Section C, Need, Item (4.B.)**

Please complete the following table providing the total eligible female population and the total number of births to female residents of the 5-county service area during the most recent year that birth data is available:

<b>Year</b>	<b>Female Population age 15-44</b>	<b>Births to Female Residents ages 15-44</b>
2010	147,746	9,557
2011	148,719	9,601
2012	148,795	9,721
2013 (if known)	148,927	unknown
% Change	.8%	1.7% (2010-2012)

**8. Section C, Need, Item 5**

The table in the response is noted, review of TDH records on the Department's website (Special reports) reflects that there were 9,699 live births by Davidson County females ages 15-44 in 2012. Using this number, your births in the response, and utilization information from the hospital JAR, please add information for the total # of hospital OB beds in service and their occupancy and complete the table provided below. As a suggestion, the applicant may wish to obtain information for the table from the following sections of the JAR: Schedule D for #OB beds and deliveries (vaginal and cesarean), Schedule F and Schedule G (please refer to MDC 14 and identify the hospital's patient days for its OB beds to measure occupancy).

**Hospital OB Capacity and Utilization in Davidson County, 2010 - 2013**

	<b>2013</b>	<b>2012</b>	<b>2011</b>	<b>2010</b>
# births by female residents of county age 15-44	unknown	9,721	9,601	9,557
Total # births reported by Davidson County hospitals (JAR)	11,189 (2 hospitals not reporting)	15,567	15,207	15,042
# births at hospitals classified as vaginal deliveries	7,107 (excludes Centennial & Summit)	9,766	9,365	9,102
Total hospital OB beds set up and staffed (Post-Partum and LDRP rooms)	110 (excludes Centennial and Summit)	167	167	149
OB Bed occupancy*	91.6% (excludes days and beds at Centennial and Summit)	82.9%	81.6%	95.3%

*\*Note: OB bed occupancy as based on patient days for MDC 14 in Schedule G of Joint Annual Report*

Based on the table, it appears that female residents of Davidson County ages 15-44 might have accounted for 60% of all births reported by county hospitals in the 2012 JAR. However, the percentage is lower when factoring in outmigration, other sites, etc. What information can the applicant provide in this regard?

***Response:*** While it is likely a reasonable assumption that most if not all Davidson County mothers deliver in Nashville hospitals, the applicant is unaware of any source of publicly available to confirm this. On the other hand, these numbers do establish that at least approximately 40% of births in Nashville hospitals are delivered to mothers in-migrating from other counties, and perhaps even more if some of the Nashville mothers are out-migrating to other counties. The level of in-migration has nominal if any impact on the

*Applicant's project, because the Applicant expects most patient will be Davidson County residents.*

**9. Section C, Need, Item 6**

The response is noted. Please identify & describe the factors that contributed to the applicant's projection of 345 cases in the first year increasing by approximately 40% to 480 cases in Year 2. Examples of factors that might apply to the initial estimate followed by the 40% increase from Year 1 to Year 2 could include: discussions with patients, number of patients inquiring about lower cost options; percent self-paying patient, percent TennCare patients, etc.

**Response:** *For the purposes of presenting a conservative projection, the applicant assumed an extended ramp up period extending well into the first full year of operation. This has the effect of causing the projection for the 2<sup>nd</sup> full year to appear to be a significant increase. As discussed in the original application and in this response, the volume projection are easily attainable based on the demand for Birthing Center option, the mandated coverage under PPACA, the number of potential patients and the cost and health benefits associated with the Birthing Center model.*

Please provide the birthing center's utilization broken out by referral sources and payor mix for Year 1 and Year 2. What payor class accounts for the majority of the 40% increase in births at the proposed facility from Year 1 to Year 2 of the project?

**Response:** *In the course of responding to this question, the applicant realized that projected TennCare revenues in year 1 were misstated in the original application on page 23. Year 1 TennCare revenues should have been stated as \$776,250 instead of \$600,000. Included as Attachment G is a replacement page 23.*

*The Applicant expects the payor mix for both years to be as follows:*

*TennCare – 30%  
Commercial Insurance – 46%  
Self-pay – 11%  
Charity/Bad Debt – 13%*

*The Applicant expects the growth in year 2 to be essentially spread evenly across all payor categories.*

Please identify the number of referrals by source such as physicians and self-referrals to help support the projected # births in Year 1 and Year 2.

**Response:** *As explained above in response to question 6 above, Birthing Centers do not rely on referrals from physicians and other providers, but patients self-refer based on their desire to experience the benefits of the Birthing Center model.*

Using deliveries reported by the 5 hospitals in your response, please identify an estimate for the # that might have been eligible for its birthing center option and complete the table below. Note: the estimate could be based on the applicant's experience in its birthing centers in other states, medical research or information from referral sources.

Hospital	2012 Total Births	Births by Vaginal Delivery	Estimated # Eligible for Birthing Center Option
Vanderbilt	4,246	3,084	633
St. Thomas Midtown	6,522	3,966	1,130
Nashville General	689	350	91
Centennial	2,998	1,747	544
Summit	1,112	769	253

**Response:** Dr. Cara Osborne, the CEO of Baby + Company and the co-founder of Maternity Centers of America, is a highly-accomplished clinician, researcher and educator in the fields of midwifery and birthing centers. Dr. Osborne's biographical summary is included in Attachment B. Based on Dr. Osborne's experience and judgment, a conservative estimate of births eligible for the birthing center option is 50% of the vaginal births classified as "minor" in the table set forth in the response to question 5, item 8 above. The preceding table was completed using this estimate.

**10. Section C, Economic Feasibility, Item 1 (Project Cost Chart)**

As noted in the previous question pertaining to Section A, Item 6 (legal interest in site), please clarify the amount of rentable square feet and the cost of the 10-year lease amount. If in error, please provide a replacement page for the chart.

**Response:** Please see response to question 2 and Attachment C.

**11. Section C, Economic Feasibility, Item 4 (Projected Data Chart)**

The Projected Data Chart is noted. In terms of operating revenue, it appears that Year 1 gross revenue is \$7,500 per birth and Year 2 is \$8,251 per birth. Deductions are \$3,252 per birth for both periods. Please explain the differences from the amounts provided (note: differences may also apply to item 5 on page 19 and item 6 on page 23).

**Response:** Gross revenue per birth in year 2 is \$7,500 ( $480 \times \$7,500 = \$3,600,000$ ), so it is reasonable to assume that adjustments would be likewise similar.

Please provide a breakout of the amounts of the VUMC staffing support cost identified in "other expenses" as to the amounts estimated for physician coverage and nurse midwife coverage.

**Response:** *In the course of responding to this question, the applicant realized that some expenses in the original Project Data Chart were classified incorrectly. The original Chart mistakenly included in line D.1 payments to VUMC for midwife salaries, and the payments to VUMC listed as "Other Expenses" mistakenly included miscellaneous expenses that the facility will incur and pay directly. In addition, the amount of rent was overstated as explained in the response to question 2 above. A revised Projected Data Chart is included as Attachment H, which includes a more detailed explanation of "Other Expenses."*

*In response to the question asked, payments to VUMC in connection with midwife services will be \$634,375 annually in years 1 and 2, and payments for medical director services will be \$12,000 annually in years 1 and 2.*

Considering the table below, please provide an explanation for the decreases in operating expenses (as measured on a per birth basis), including the 30% decrease in VUMC's professional services. Please also summarize the rationale for the growth in births leading to the 200% increase in the proposed birthing center's net operating income (NOI).

<b>Financial Indicator (per projected birth basis)</b>	<b>Year 1 345 births</b>	<b>Year 2 480 Births</b>	<b>% Change</b>
Gross Revenue/Birth	\$8,185/birth	\$8,251/birth	1% increase
Total Operating Expenses/Birth	\$4,465/birth	\$3,600/birth	20% decrease
VUMC Professional Services	\$995/birth	\$710/birth	30% decrease
Net Operating Income	\$467/birth	\$1,400/birth	200% increase

**Response:** *As noted above, gross revenue per birth is \$7,500 in both years 1 and 2. The difference in net operating income per birth between year 1 and year 2 results from spreading fixed cost over more births. The labor cost associated with increasing volumes from 345 to 480 (40%) increases only \$29,331. It should be noted that the slight decrease in the amount payable to VUMC from year 1 to year 2 is based on the assumption that more clinical management time will be required in year1 in connection with implementing policies and procedures, initiation of service, etc.*

Given the start-up capital of \$754,974 identified in the letter from John Morrissey, CFO, Fortress Equity Partners, LP, should some amount be included in the Projected Data Chart for repayment or will same be forgiven by MCA's investor/owner? Please clarify. If so, please describe the general terms that apply and include the amount as an expense in a revised chart.

**Response:** *The contribution to the owner from Fortress Equity Partners, LP, is an equity investment and there is no repayment obligation.*

**12. Section C, Economic Feasibility, Item 9**

The consolidated and unaudited financial statements of Maternity Centers of America (MCA) for the period ending May 31, 2014 are noted. In light of MCA's net income loss of \$551,742, a current ratio of 0.8 to 1.0, and other MCA projects under development in other states, please address what measures will be taken to reduce the financial risk of this project.

**Response:** *In light of the high demand for the Birthing Center option, the robust market in Nashville for the option based on the number of uncomplicated births and the absence of the options in the market, as well as the Applicant's arrangement with VUMC, the Applicant is confident of its ability to meet the financial projections. The Applicant also notes that its private equity investor, Fortress Equity Partners, is the private equity arm of Fortress Investment Group, LLC, a large, publicly traded asset management firm with substantial assets, as reflected in its financial statements referenced in the next response.*

Given the applicant's investor/ownership relationship to Fortress Equity Partners (FEP) and FEP's start-up capital support, please provide the requested financial information from FEP for the most recent 12-month operating period available.

**Response:** *FEP does not prepare any public financial statements. For purposes of this application FEP prepared a balance sheet as of May 31, 2014, which is included in Attachment I. FEP is wholly-owned by Fortress Investment Group, LLC. Also included under Attachment I is an excerpt from the 2013 audited financial statement for Fortress Investment Group, LLC, set forth in its 10k filing with the Securities and Exchange Commission.*

**13. Section C, Orderly Development, Item 2**

Please complete the following chart for the key positive and negative effects of the proposed project:

Positive Effects	Negative Effects
1) option to hospital setting	1) small reduction of volumes at Nashville hospitals, mainly VUMC as it is the site of the only current midwife program in the city.
2) Provide low-risk mother with an option that is more cost-effective, contributes to a lower C-section rate and views child birth as a naturally occurring event rather than a health care event.	2)

FILED

**To The Secretary of the State of Tennessee:**

Pursuant to the provisions of T.C.A. §48-249-904 of the Tennessee Revised Limited Liability Company Act, the undersigned hereby applies for a certificate of authority to transact business in the State of Tennessee, and for that purpose sets forth:

1. The name of the Limited Liability Company is: Baby+Company Nashville I LLC

If different, the name under which the certificate of authority is to be obtained is: \_\_\_\_\_

NOTE: The Secretary of State of the State of Tennessee may not issue a certificate of authority to a foreign Limited Liability Company if its name does not comply with the requirements of T.C.A. §48-249-106 of the Tennessee Revised Limited Liability Company Act. If obtaining a certificate of authority under an assumed Limited Liability Company name, an application must be filed pursuant to T.C.A. §48-249-106(d).

2. The state or country under whose law it is formed is: Delaware

and the date of its formation is: 05 / 29 / 2014 and the date it commenced doing business in Tennessee is: \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_  
Month Day Year Month Day Year

NOTE: Additional filing fees and proof of tax clearance confirming good standing may apply if the Limited Liability Company commenced doing business in Tennessee prior to the approval of this application. See T.C.A. §48-249-913(d) and T.C.A. §48-249-905(c)

3. This company has the additional designation of: \_\_\_\_\_

4. The name and complete address of its registered agent and office located in the state of Tennessee is:

Name: C.T. Corporation System

Address: 800 S. Gay Street, Suite 201

City: Knoxville State: TN Zip Code: 37929 County: Knox

5. Fiscal Year Close Month: December 2014

6. If the document is not to be effective upon filing by the Secretary of State, the delayed effective date and time is: (Not to exceed 90 days)

Effective Date: \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_ Time: \_\_\_\_\_  
Month Day Year

7. The LLC will be: ☒ Member Managed ☐ Manager Managed ☐ Director Managed ☐ Board Managed ☐ Other

8. Number of Members at the date of filing: 1

9. Period of Duration: ☒ Perpetual ☐ Other \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_  
Month Day Year

10. The complete address of its principal executive office is:

Address: c/o Fortress Investment Group LLC, 1345 Ave of the Americas, 46th Floor

**Vanderbilt University Medical Center**

Chief Nursing Officer/Associate Hospital Director, Patient Care Services, Vanderbilt University Hospital, April 2008 – Present

Position is the Chief Nursing Officer for Vanderbilt University Hospital. Responsible for a total annual budget of \$136.3 million and 1561 full time equivalents (FTEs). Position has a dual direct reporting to the Chief Executive Officer and Executive Chief Nursing Officer.

Vanderbilt University Hospital is an regional referral center with 580 acute care beds. Services are comprehensive and include; Level 1 trauma center, burn center, regional high-risk perinatal center with fetal surgery program, heart and vascular institute, cancer institute, organ transplant program and other general medical and surgical services. Chief Nursing officer position is responsible for all inpatient nursing services, Emergency Department, LifeFlight helicopter and fixed wing programs, respiratory therapy, social services, case management, utilization management and access. Vanderbilt University Hospital has over 36,000 acute care discharges, 4,000 deliveries, 3,500 newborn discharges, and 62,000 emergency department visits.

Vanderbilt University Medical Center received Magnet re-designation in April of 2012.

### **Vanderbilt University School of Nursing**

#### **Academic Appointments**

Adjunct Assistant Professor, Vanderbilt School of Nursing, DNP Program, August 2013 - Present  
Adjunct Assistant Professor, Vanderbilt School of Nursing, MSN Program, July 2009 – July 2012  
Assistant Professor, Health Systems Management, September 2006 – March 2008  
Instructor, Health Systems Management, April 2002 – September 2006

Teaching responsibilities in the Health Systems Management and Clinical Nurse Leader programs. Particular areas of emphasis included leadership, financial management, strategic planning and program development.

#### **Administrative Appointments**

Assistant Dean for Faculty Practice, February 2007 – March 2008  
Business Officer, University Community Health Services, September 2006 – March 2008  
Administrative Officer for Faculty Practice, March 2004 – September 2006  
Coordinator Kellogg Birth Center Project, Instructor, April 2002 – March 2004

Administrative functions at VUSN included administrative oversight for the faculty practice division. VUSN has one of the largest faculty practice divisions in the country. This role included the business Officer role for University Community Health Services (UCHS). UCHS was a nurse-managed clinic established by the school of nursing to provide care for underserved populations in Nashville and surrounding areas. Contributed to the successful completion of an FQHC application for UCHS.

#### **Baptist Women's Pavilion Hospital, March 1999 – April 2002, Chief Executive Officer**

Position was responsible for all operations of Baptist Women's Pavilion Hospital, which was a 22 bed women's hospital located in the North Tower on the Baptist Campus. I was hired 6 months prior to the hospital opening in October of 1999 and was responsible for operationalizing all aspects of the facility. The facility included a six (6) bed operative suite that performed inpatient and outpatient surgery and an LDPR unit with 2000 deliveries per year. The facility also included a comprehensive breast center. This position also functioned as the Chief Nursing Officer for the organization.

#### **Tennessee Christian Medical Center, August 1997 – March 1999, Chief Operating Officer**

Executive position reporting to the CEO responsible for all operations of Tennessee Christian Medical Center. Tennessee Christian Medical Center is a not for profit organization owned and operated by Adventist Health System, Sunbelt. Operational responsibilities included a 234-bed hospital facility located on the Madison Campus, a 36-bed satellite facility located in Portland, Tennessee and multiple clinics and outpatient programs located throughout Middle Tennessee. Served as a member of numerous corporate committees including Corporate Clinical Council, MIS Council,

Formulary Development Task Force and Operational Strategic Planning Task Force.

**Tennessee Christian Medical Center, April 1996 – August 1997, Vice President, Clinical and Professional Services**

Nursing executive position responsible for acute medical - surgical services, sub acute services and all ancillary services. Functioned as Chief Nursing Officer responsible for clinical standards and regulatory compliance.

**Centennial Medical Center, May 1994 – January 1996, Vice President, The Women's Hospital**

Executive position reporting to the CEO of Centennial Medical Center responsible for The Women's Hospital. The Women's Hospital is a 160 bed freestanding women's hospital that includes an outpatient diagnostic and treatment center. Areas of operational responsibility included: the Neonatal Intensive Care Unit, Labor/Delivery/Recovery, High Risk Antepartum and Labor Unit, Post-partum Unit, Well Baby Nursery, Pediatric Unit, Women's Surgery Unit and Women's Hospital Health Center. Additionally functioned in a program development and physician liaison role for operative services.

Responsibilities included strategic planning for Women's Hospital, network development, new program development and physician relations. Responsible for ensuring JCAHO compliance within the Women's Hospital.

**Centennial Medical Center – West Side, October 1990 – May 1994, Administrative Director, Women's and Children's Services**

Nursing executive position reporting to the Vice President of Nursing. Areas of operational responsibility included: the Neonatal Intensive Care Unit, Labor/Delivery/Recovery, High Risk Antepartum and Labor Unit, Maternal-Infant Unit, Pediatric Unit, two Adult Medical and Surgical Units and Women's Resource and Procedure Center. Additional responsibilities include strategic planning, program development and physician relations.

**Centennial Medical Center – West Side, February 1990 – October 1990, Nurse Manager – Nurseries**

Leadership responsibilities included a 20 bed Level III Neonatal Intensive Care Unit and a 32-bed Well Baby Nursery. Position was responsible for the nursing operations of these two units as well as marketing and physician relations. Served on the core planning team for the development of a new Maternal-Infant Unit and the transition from LDRP to LDR.

**Children's Healthcare, Inc, February 1989 – February 1990, Deputy Corporate Director of Nursing**

Leadership position that had primary responsibility for the nursing operations of Children's Healthcare. Children's Healthcare is a pediatric home nursing company that had 6 local offices in three states employing a total of 350 full/part time pediatric and neonatal nurses. Administrative responsibilities included: supervision and evaluation of local Directors of Nursing, local office budget determination, reimbursement rate negotiations with managed care companies, quality assurance, JCAHO preparation, identification and development of new markets and program development in existing markets.

**Vanderbilt University Medical Center, April 1985 – February 1989, Nurse Coordinator  
Pediatric Intensive Care Unit, Pediatric Intermediate Intensive Care Unit**

Management position which had responsibility for a 16 bed pediatric intensive and intermediate care unit. Vanderbilt University Medical Center is a teaching and regional referral center. Responsibilities included budget determination and monitoring, hiring and staffing decisions, instituting progressive discipline,

evaluating employee performance, scheduling and quality assurance on the unit level. Total FTE responsibilities were 49.4.

**Vanderbilt University Medical Center, March 1984 – April 1985, Assistant Nurse Coordinator Neonatal Intensive Care Unit**

Position was responsible for the 3-11 shift in the Neonatal Intensive Care Unit and Intermediate Nursery.

**Vanderbilt University Medical Center, January 1983 – March 1984, Staff Nurse, Neonatal Intensive Care Unit**

Staff nurse position responsible for total patient care provision for acutely ill neonates.

**Henrietta Egleston Children's Hospital, August 1981 – March 1982, Staff Nurse I and II, Neonatal Intensive Care Unit**

Staff nurse position responsible for total patient care. Assumed charge nurse duties and was promoted to Staff Nurse II within six months of beginning as a new graduate.

### **TEACHING EXPERIENCES**

**Financial Management**, Health Systems Management Tract, Course Coordinator

**Health Systems Administration Practicum II**, Health Systems Management Tract, Course Coordinator

**Health Systems Administration Practicum I**, Health Systems Management Tract Course Coordinator

**Strategic, Administrative and Clinical Decision Making**, Clinical Nurse Leader Tract, Course Coordinator

**June 27, 2014**

*Response: The applicant projects a total of 345 cases the first year of operation and 480 cases the second full year. Based on the significant unmet demand for the birth center option and the project's relationship with VUMC, these projections are easily achievable.*

**ECONOMIC FEASIBILITY**

1. Provide the cost of the project by completing the Project Costs Chart on the following page. Justify the cost of the project.

- All projects should have a project cost of at least \$3,000 on Line F. (Minimum CON Filing Fee). CON filing fee should be calculated from Line D. (See Application Instructions for Filing Fee)
- The cost of any lease (building, land, and/or equipment) should be based on fair market value or the total amount of the lease payments over the initial term of the lease, whichever is greater. Note: This applies to all equipment leases including by procedure or "per click" arrangements. The methodology used to determine the total lease cost for a "per click" arrangement must include, at a minimum, the projected procedures, the "per click" rate and the term of the lease.

*Response: The total lease payments over the initial 10 year term of the lease will be \$1,255,187.86. Per the letter from the building owner (Attachment C, Economic Feasibility – 1(Building FMV)), the current fair market value of the entire building is \$936,000, so the aggregate lease payments are used as building cost for the certificate of need application.*

- The cost for fixed and moveable equipment includes, but is not necessarily limited to, maintenance agreements covering the expected useful life of the equipment; federal, state, and local taxes and other government assessments; and installation charges, excluding capital expenditures for physical plant renovation or in-wall shielding, which should be included under construction costs or incorporated in a facility lease.
- For projects that include new construction, modification, and/or renovation; **documentation must be** provided from a licensed architect or construction professional that support the estimated construction costs. Please provide a letter that includes:
  - 1) a general description of the project;
  - 2) estimate of the cost to construct the project to provide a physical environment, according to applicable federal, state and local construction codes, standards, specifications, and requirements; and
  - 3) attesting that the physical environment will conform to applicable federal standards, manufacturer's specifications and licensing agencies' requirements including the most recent AIA Guidelines for Design and Construction of Hospital and Health Care Facilities.

*Response: See architect letter attached under Attachment C, Economic Feasibility – 1(Architect Letter).*

# Attachment G

**June 27, 2014**

6. A. Please provide the current and proposed charge schedules for the proposal. Discuss any adjustment to current charges that will result from the implementation of the proposal. Additionally, describe the anticipated revenue from the proposed project and the impact on existing patient charges.

*Response: The applicant's proposed charge for a labor and delivery case will be \$7,500, which will cover all services provided in connection with a delivery.*

- B. Compare the proposed charges to those of similar facilities in the service area/adjoining service areas, or to proposed charges of projects recently approved by the Health Services and Development Agency. If applicable, compare the proposed charges of the project to the current Medicare allowable fee schedule by common procedure terminology (CPT) code(s).

*Response: The only source that the applicant has been able to identify for obstetrical charges is the 2012 Tennessee Hospital Discharge Data Report created by the Tennessee Department of Health. This report shows charge data for various DRGs classified by severity under the categories of "minor", "moderate" and "major". In the case of Vaginal Delivery (DRG 560), the applicant believes the category of "minor" includes the low-risk birth cases that it will serve. The charge data from the Report for Nashville hospitals for DRG 560 in the minor category are as follows:*

*Nashville General - \$5,836*

*St. Thomas Midtown - \$12,885*

*Vanderbilt University Hospital - \$10,548*

*TriStar Centennial Medical Center - \$16,188*

*TriStar Summit Medical Center - \$12,976*

*The applicant's proposed charge for is a delivery is \$7,500. It should be noted that this is global charge, including services provided in connection with a delivery. The hospital charges do not include professional charges or newborn charges, so an "apples-to-apples" comparison is not possible.*

7. Discuss how projected utilization rates will be sufficient to maintain cost-effectiveness; how financial viability will be ensured within two years; and demonstrate the availability of sufficient cash flow until financial viability is achieved.

*Response: As indicated in the Projected Data Chart, the project will achieve positive financial results in the first full year, and the applicant has the resources to sustain the facility until results are positive.*

8. Discuss the project's participation in state and federal revenue programs including a description of the extent to which Medicare, TennCare/Medicaid, and medically indigent patients will be served by the project. In addition, report the estimated dollar amount of revenue and percentage of total project revenue anticipated from each of TennCare, Medicare, or other state and federal sources for the proposal's first year of operation.

*Response: The facility will contract with all TennCare MCOs serving Middle Tennessee. The projected TennCare gross revenue in year 1 is \$776,250 and in year 2, \$1,080,000. In light of the services to be provided, the facility will not serve Medicare patients.*

**June 27, 2014****1:20 pm****Report of Independent Registered Public Accounting Firm**

The Board of Directors and Shareholders of Fortress Investment Group LLC

We have audited the accompanying consolidated balance sheets of Fortress Investment Group LLC (the Company) as of December 31, 2013 and 2012, and the related consolidated statements of operations, comprehensive income, changes in equity, and cash flows for each of the three years in the period ended December 31, 2013. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Fortress Investment Group LLC at December 31, 2013 and 2012, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2013, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Fortress Investment Group LLC and subsidiaries' internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (1992 Framework) and our report dated February 27, 2014 expressed an unqualified opinion thereon.

February 27, 2014

**Report of Independent Registered Public Accounting Firm**

The Board of Directors and Shareholders of Fortress Investment Group LLC

We have audited Fortress Investment Group LLC and subsidiaries' (the Company) internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (1992 Framework) (the COSO criteria). The Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Fortress Investment Group LLC and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Fortress Investment Group LLC as of December 31, 2013 and 2012, and the related consolidated statements of operations, comprehensive income, changes in equity, and cash flows for each of the three years in the period ended December 31, 2013, and our report dated February 27, 2014 expressed an unqualified opinion thereon.

June 20, 2014

Dan Elrod, Esq.  
Butler Snow LLP  
2106 21<sup>st</sup> Avenue  
Nashville, TN 37212

RE: Certificate of Need Application CN1406-022  
Baby + Company Nashville

Dear Mr. Elrod:

This will acknowledge our June 13, 2014 receipt of your application for a Certificate of Need for the establishment of a birthing center to include 5 birthing suites, 3 examination rooms and various support areas in approximately 4,350 square feet of leased space in an existing building at 2106 21<sup>st</sup> Avenue, Nashville, TN.

Several items were found which need clarification or additional discussion. Please review the list of questions below and address them as indicated. The questions have been keyed to the application form for your convenience. I should emphasize that an application cannot be deemed complete and the review cycle begun until all questions have been answered and furnished to this office.

**Please submit responses in triplicate by noon on June 27, 2014.** If the supplemental information requested in this letter is not submitted by or before this time, then consideration of this application may be delayed into a later review cycle.

---

**1. Section A, Item 3 (Owner)**

The June 2, 2014 documentation of Baby + Company Nashville 1 LLC's status as a Delaware Corporation is noted. Please also confirm the status of applicant's registration to do business in Tennessee.

Since Licensure Rules indicate the entity will be governed by a board with specific oversight responsibilities (Chapter 1200-8-24-.04), who will be the members of the board? In your response, please also briefly describe the organization of the board in such a manner that the process it will use to carry out its general responsibilities for the clinical, business and financial affairs of the proposed Birthing Center can be fully appreciated.

**2. Section A, Item 6 (Legal Interest in Site) and Section B, Project Description, Item II.B**

The June 5, 2014 Letter of Intent (LOI) and discussion of the 4,350 square feet (SF) of leased space for the proposed facility with Square Footage Chart is noted. The LOI identifies what appears to be a total of approximately 9,200 rentable SF on the 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> floors of the existing building. The letter also notes that the landlord shall provide a "Right of First Refusal for the 4,650 SF on the 2<sup>nd</sup> floor". No mention is made of the 4,350 square feet identified by the applicant for the proposed birthing center as reflected in this section, the SF Chart and the Project Costs Chart. Please clarify.

The lease payment schedule in the 6/5/14 LOI appears to total to a \$1,374,000 lease cost over 10 years in lieu of the \$1,908,462.65 lease cost in the Project Costs Chart on page 17. It is unclear if the amount applies to the 9,200 total square feet or the 4,650 SF on the 2<sup>nd</sup> floor mentioned in the LOI. In addition, it is unclear where how the applicant came up with a \$1,908,463 lease costs for the project. Please explain.

Please include a brief description of the existing building that will house the proposed birthing center noting year built, # floors, zoning status, and a brief history of its use, including current occupancy status by other tenants and nature of same.

**3. Section B, Project Description, Item II.A. and Item IV (Floor Plan)**

In reviewing with the June 4, 2014 letter from the architect, please discuss and point out on the floor plan how and from what location(s) the applicant intends to provide requisite laboratory and food services as required in the Department of Health licensure rules 1200-8-24-.06 (7) and (12), respectively. Where will the applicant clean and re-sterilize instruments and equipment?

Will the Birthing Center design conform to the 2010 AIA Guidelines for Design and Construction of Healthcare Facilities (or more recent version if available)?

**4. Section C, Need, Item 1 (State Health Plan)**

**State Health Plan, Access** – the absence of a licensed birthing center is noted. Given the demographics provided on page 15 as to % of county population that are TennCare recipients & the % below the poverty level, please discuss the barriers to access facing females of child bearing age. In your response, please include a brief description of how the applicant plans to reach this population in creating awareness and demand for its services. In your response, please also describe what opportunities exist for provider participation in all the TennCare managed care plans offered in Davidson County, including new plans being offered statewide beginning 2015..

**State Health Plan, Health Care Workforce** – the comments are noted, In terms of using the facility for clinical training, would the opportunity be open to other schools of nursing in addition to Vanderbilt? Would training be open to nurse midwives & other clinical professionals of the other Birthing Centers in the state. Please discuss.

**5. Section C, Need, Item 1, Project Specific Criteria, Birthing Centers**

**Item 1:**

The comments are noted. Other than the absence of a birthing center in the county, an appreciation of the adequacy, capacity and utilization of existing hospital OB resources and utilization would be appreciated. Hospital capacity measures from the Joint Annual Report that may help illustrate same include OB bed complements & their utilization. Please provide the requested metrics for the response to HSDA Examiner's question # 8 (Section C, Need, Item 5) on page 6 of this correspondence.

The question also provides an opportunity to address special circumstances which require additional services. One area of interest might be any special circumstances arising out of expanded insurance coverage options related to the provision of "essential benefits" under the Affordable Care Act being offered through the Health Insurance Exchange. Another may be the aspect of enhancing access for TennCare recipients through the applicant's addition to MCO provider networks. Please comment

**Items 2 and 3**

For a further appreciation of the applicant's Davidson County service area, please complete the following table providing a summary of the total eligible female population and the total number of births from 2010 through the most recent year that birth data is available (e.g.2013).

**Births by Female Residents of Davidson County, 2010-2013**

<b>Year</b>	<b>Female Population 15-44</b>	<b>ages</b>	<b>Births to female residents ages 15-44</b>	<b>Births at hospitals In county</b>	<b>Female resident births as a % of hospital births</b>
2010					
2011					
2012					
2013					
% Change					

**Item 4-** what indications does the applicant have that the facility will be well received by TennCare MCOs? A discussion of provider network participation for this type of service would be helpful and any related information pertaining to low risk births by covered enrollees would be helpful here.

Please also include a description of arrangements that will be made to facilitate use by ethnic minorities such as Hispanic speaking persons.

**Item 5-** please include the additional metrics such as # OB beds and estimated bed occupancy.

**Item 6-** the applicant's plans to contract with VUMC as the back-up emergency transfer hospital as confirmed in the June 10, 2014 letter from C. Wright Pinson, MBA, MD (CEO of Vanderbilt Health System) is noted. Review of the draft emergency protocols reveals that transfer by ambulance may be warranted in certain circumstances. Has the applicant also contacted local emergency ambulance services? If so, please include a letter(s) of support for the project from same.

The applicant states that the proposed birthing center is approximately 1 mile from VUMC. Please provide a map showing (MapQuest or google maps) with facility locations & name (s) of streets between same.

**Item 7 –** please address consideration given to the use of fetal monitors at the proposed birthing center in circumstances where risk increases after the labor and birthing process begins. Please discuss the means and criteria by which the applicant intends to manage this process if fetal monitoring is unavailable to detect fetal distress.

**Item 8 –** hospital IP charges can be compared for Vaginal Deliveries (DRG540) on a low – high severity of condition scale using information from the 2012 Tennessee Hospital Charge Reports. This report can be found on the Department of Health/Health Statistics link to the toolbox on the HSDA website. The applicant can also include a comparison to charges of other existing birthing centers in Tennessee located in Knox, Wayne, Putnam and Monroe Counties (all of these birthing centers are provider members of Blue Cross's TennCare MCO plan). Please review the information provided in the TDH report (e.g. the # of procedures by severity and average/median charge) and include a discussion of the findings in your response.

**Item 9 -** Your response is noted.

Please identify who the applicant proposed to appoint as the Medical Director and provide documentation of the medical director's professional credentials, including the following: a copy of proposed medical director's board certificate, curriculum vitae, letter of hospital obstetrical admitting privileges, and the number of deliveries which the appointee has supervised for each of the past three years.

Please provide documentation of the professional credentials for each of the physicians who will be practicing at the proposed birthing center, including the following: a copy of the physician's board certificate, curriculum vitae, letter of hospital obstetrical admitting privileges and the number of deliveries which the appointee has supervised for each of the past three years.

## **6. Section C, Need, Item 2 and Section C, Orderly Development, Item 2**

It appears that physicians of the OB service of VUMC are key potential referral sources for the applicant. Given the other hospitals with OB services in the county and the large private practice physician community, please describe the applicant's plans to develop its referral base, create awareness and otherwise create a market niche for the proposed birthing center in the medical community.

Please also comment on similar development activities with health insurance, local business community leadership and elected public officials to gain support for the facility. What are the expectations of these parties, if any, concerning the applicant's leadership and role in addressing the health care needs of the target maternal population located in the county?

Please provide descriptions of the applicant's plans to coordinate the referral of potential OB patients to other providers that do not qualify for admission to the proposed birthing center. Please also discuss the plans of members of the applicant's physician and clinical staff to coordinate patient care with the medical staffs of other hospitals that have the capacity to absorb the additional volumes from the applicant's birthing service.

**7. Section C, Need, Item (4.B.)**

Please complete the following table providing the total eligible female population and the total number of births to female residents of the 5-county service area during the most recent year that birth data is available:

<b>Year</b>	<b>Female Population, age 15-44</b>	<b>Births to female residents Ages 15-44</b>
<b>2010</b>		
<b>2011</b>		
<b>2012</b>		
<b>2013 (if known)</b>		
<b>% Change</b>		

**8. Section C, Need, Item 5**

The table in the response is noted, review of TDH records on the Department's website (Special reports) reflects that there were 9,699 live births by Davidson County females ages 15-44 in 2012. Using this number, your births in the response, and utilization information from the hospital JAR, please add information for the total # of hospital OB beds in service and their occupancy and complete the table provided below. As a suggestion, the applicant may wish to obtain information for the table from the following sections of the JAR: Schedule D for #OB beds and deliveries (vaginal and cesarean), Schedule F and Schedule G (please refer to MDC 14 and identify the hospital's patient days for its OB beds to measure occupancy).

**Hospital OB Capacity and Utilization in Davidson County, 2010 - 2013**

	2013	2012	2011	2010
# births by female residents of county age 15-44		9,699	9,581	
Total # births reported by Davidson County hospitals (JAR)	11,189 (2 hospitals not reporting)	15,567	15,207	
# births at hospitals classified as vaginal deliveries				
Total hospital OB beds set up and staffed				
OB Bed occupancy *				

*Note: OB bed occupancy as based on patient days for MDC 14 in Schedule G of Joint Annual Report*

Based on the table, it appears that female residents of Davidson County ages 15-44 might have accounted for 60% of all births reported by county hospitals in the 2012 JAR. However, the percentage is lower when factoring in outmigration, other sites, etc. What information can the applicant provide in this regard?

**9. Section C, Need, Item 6**

The response is noted. Please identify & describe the factors that contributed to the applicant's projection of 345 cases in the first year increasing by approximately 40% to 480 cases in Year 2. Examples of factors that might apply to the initial estimate followed by the 40% increase from Year 1 to Year 2 could include: discussions with patients, number of patients inquiring about lower cost options; percent self- paying patient, percent TennCare patients, etc.

Please provide the birthing center's utilization broken out by referral sources and payor mix for Year 1 and Year 2. What payor class accounts for the majority of the 40% increase in births at the proposed facility from Year 1 to Year 2 of the project?

Please identify the number of referrals by source such as physicians and self-referrals to help support the projected # births in Year 1 and Year 2.

Using deliveries reported by the 5 hospitals in your response, please identify an estimate for the # that might have been eligible for its birthing center option and complete the table below. Note: the estimate could be based on the applicant's experience in its birthing centers in other states, medical research or information from referral sources.

hospital	2012 total births	Births by vaginal delivery	Estimated # eligible for birthing center option	
Vanderbilt				
St Thomas Midtown				
Nashville general				
Centennial				
Summit				

#### 10. Section C, Economic Feasibility, Item 1 (Project Cost Chart)

As noted in the previous question pertaining to Section A, Item 6 (legal interest in site), please clarify the amount of rentable square feet and the cost of the 10-year lease amount. If in error, please provide a replacement page for the chart.

#### 11. Section C, Economic Feasibility, Item 4 (Projected Data Chart)

The Projected Data Chart is noted. In terms of operating revenue, it appears that Year 1 gross revenue is \$7,500 per birth and Year 2 is \$8,251 per birth. Deductions are \$3,252 per birth for both periods. Please explain the differences from the amounts provided (note: differences may also apply to item 5 on page 19 and item 6 on page 23).

Please provide a breakout of the amounts of the VUMC staffing support cost identified in "other expenses" as to the amounts estimated for physician coverage and nurse midwife coverage.

Considering the table below, please provide an explanation for the decreases in operating expenses (as measured on a per birth basis), including the 30% decrease in VUMC's professional services. Please also summarize the rationale for the growth in births leading to the 200% increase in the proposed birthing center's net operating income (NOI).

<b>Financial Indicator (per projected birth basis)</b>	<b>Year 1 345 births</b>	<b>Year 2 480 Births</b>	<b>% Change</b>
Gross Revenue/Birth	\$8185/birth	\$8251/birth	1% increase
Total Operating Expenses/Birth	\$4465/birth	\$3600/birth	20% decrease
VUMC Professional Services	\$995/birth	\$710/birth	30% decrease
Net Operating Income	\$467/birth	\$1400/birth	200% increase

Given the start-up capital of \$754,974 identified in the letter from John Morrissey, CFO, Fortress Equity Partners, LP, should some amount be included in the Projected Data Chart for repayment or will same be forgiven by MCA's investor/owner? Please clarify. If so, please describe the general terms that apply and include the amount as an expense in a revised chart.

## 12. Section C, Economic Feasibility, Item 9

The consolidated and unaudited financial statements of Maternity Centers of America (MCA) for the period ending May 31, 2014 are noted. In light of MCA's net income loss of \$551,742, a current ratio of 0.8 to 1.0, and other MCA projects under development in other states, please address what measures will be taken to reduce the financial risk of this project.

Given the applicant's investor/ownership relationship to Fortress Equity Partners (FEP) and FEP's start-up capital support, please provide the requested financial information from FEP for the most recent 12-month operating period available.

## 13. Section C, Orderly Development, Item 2

Please complete the following chart for the key positive and negative effects of the proposed project:

Positive Effects	Negative effects
1)option to hospital setting	1.)
2)reduce migration to birthing centers in distant counties	2.)
3)	3.)
4.)	4.)
5.)	5.)

In accordance with Tennessee Code Annotated, §68-11-1607(c) (5), "...If an application is not deemed complete within sixty (60) days after written notification is given to the applicant by the agency staff that the application is deemed incomplete, the application shall be deemed void."

**For this application the sixtieth (60<sup>th</sup>) day after written notification is August 25, 2014. If this application is not deemed complete by this date, the application will be deemed void.**

Agency Rule 0720-10-.03(4) (d) (2) indicates that "Failure of the applicant to meet this deadline will result in the application being considered withdrawn and returned to the contact person. Re-submittal of the application must be accomplished in accordance with Rule 0720-10-.03 and requires an additional filing fee." Please note that supplemental information must be submitted timely for the application to be deemed complete prior to the beginning date of the review cycle which the applicant intends to enter, even if that time is less than the sixty (60) days allowed by the statute. The supplemental information must be submitted with the enclosed affidavit, which

shall be executed and notarized; please attach the notarized affidavit to the supplemental information.

If all supplemental information is not received and the application officially deemed complete prior to the beginning of the next review cycle, then consideration of the application could be delayed into a later review cycle. The review cycle for each application shall begin on the first day of the month after the application has been deemed complete by the staff of the Health Services and Development Agency.

*Any communication regarding projects under consideration by the Health Services and Development Agency shall be in accordance with T.C.A. § 68-11-1607(d):*

- (1) No communications are permitted with the members of the agency once the Letter of Intent initiating the application process is filed with the agency. Communications between agency members and agency staff shall not be prohibited. Any communication received by an agency member from a person unrelated to the applicant or party opposing the application shall be reported to the Executive Director and a written summary of such communication shall be made part of the certificate of need file.*
- (2) All communications between the contact person or legal counsel for the applicant and the Executive Director or agency staff after an application is deemed complete and placed in the review cycle are prohibited unless submitted in writing or confirmed in writing and made part of the certificate of need application file. Communications for the purposes of clarification of facts and issues that may arise after an application has been deemed complete and initiated by the Executive Director or agency staff are not prohibited.*

Should you have any questions or require additional information, please contact this office.

Sincerely,

Jeff Grimm  
HSDA Examiner

PJG, Enclosure
